FBI Probed 'Plot' Suspect, Clark Reports

Arrest Is First Made by Garrison In His Investigation

Atty. Gen. designate Ramsey Clark said today the Federal Bureau of Investigation already has investigated and cleared Clay L. Shaw—a businessman arrested in New Orleans—of any part in the assassination of President John F. Kennedy.

Clark made the statement to reporters moments after the Senate Judiciary Committee approved his nomination to become attorney general.

Shaw, wealthy retired director of the International Trade Mart, at New Orleans, has been booked on a charge of "conspiracy to commit murder" in the Kennedy assassination investigation being runb y eNw Orleans Dist, Atty. Jim Garrison.

In a brief corridor interview, lark said the Justice Department knows what Garrison's case involves, and does not conider it valid.

However, the former chief counsel to the Warren Commistion, J. Lee Rankin, said earlier hat "as far as I know, we've never heard of this person (Shaw)."

The Warren Commission's report did not mention Shaw. Clark said Shaw "was included

n an investigation in November and December of 1963." "We have the evidence and we

can assume what their conclusions are," Clark said. "On the evidence that the FBI

"On the evidence that the FBI has, there was no connection found" between Shaw and the assassination of the President in Dallas on Nov. 22, 1963, Clark said.

"He was checked out and found clear?" Clark was asked. "That's right," Clark replied. Both the FBI and the Justice Department had previously refused to discuss the arrest of Shaw.

Shaws arrest was the first in Garrison's assassination probe. "There will be more arrests,

a considerable number of them," said Garrison.

Shaw's luxurious French Quarter home was searched for nearly three hours by Garrison's agents. The dozen men who made the search carried away five cardboard boxes filled with various items, including books and a rifle or shotgun in a canvas case.

It wasn't clear whether Shaw is accused of taking part in conspiratorial talk about killing President Kennedy or of taking part in a conspiracy which in fact ended in the actual assassination.

Shaw brushed past newsmen without a word when he was released after being booked, fingerprinted and photographed.

He was arrested in Garrison's office, where he had appeared for questioning, in response to subpoena.

Garrison has vowed to prove that a conspiracy conceived in New Orleans "culminated in the assassination of President John F. Kennedy" in Dallas Nov. 22, 1963.

The Warren Commission concluded that Lee Harvey Oswald, a former New Orleans resident, shot the President and found no credible evidence that any one else was involved.

Kennedy Admirer

(Shaw was described as a "political liberal, very admiring of President Kennedy," by Jesse Core, who worked with Shaw at the Trade Mart in 1963, United Press International said.

(Shaw "talked of voting for Kennedy and wore a Kennedy for President button" in 1960, Core said.

(Shaw said in an interview last week he saw Oswald distributing Fair Play for Cuba committee leaflets near the old Trade Mart in 1963 but never met Oswald and had not talked to him, UPI said.)

The announcement of Shaw's arrest said:

"Mr. Shaw will be charged with participation in a conspiracy to murder John F. Kennedy. "It should be pointed out, however, that the nature of this case is not conducive to an immediate succession of arrests at this time. However, other ar-rests will be made at a later date." The booking and the an-nouncement did not specify whether Shaw was being charged with a conspiracy resulting in Kennedy's death - or with a conspiracy, not carried through, to commit the murder. Asked about this, Garrison replied: "I don't want to get involved in semantics."
