

8/9/77

Dear Dr. Cohen,

Here are the first 692 pages of Part 1.

I'm sending them separately in the belief you are anxious to read them and that you stay busy, thus not having much time for such pursuits.

I had expected to be able to send all of Part 1 in tomorrow's mail but that will not be possible.

Today I received an overdue package from the FBI. It is essential that I get a copy made for my lawyer on this FOIA case. So my wife has started that copying. I hope she'll be able to complete it tomorrow - it is a large job - and that the next day she can complete the copying for you. If there are no further emergencies the rest should go out the day after that.

The extra cost of special handling is not great. It should carry this package about like first class, which would be very costly.

After you have received all of these records please just add the postage to the check. I will not know what the postage comes to until after the package is mailed.

Sincerely,

Harold Weisberg
