

NEWS FOR IMMEDIATE RELEASE

from the COMMITTEE to FINGER the PATSY
=====

10 August 1978

A new batch of coverup whitewash is being readied in Washington for House Select Committee on Assassinations, according to officials of the Committee to Finger the Patsy, a national organization devoted to the truth behind the various assassination conspiracies and coverups.

Lewis Bomfeld, a CFP spokesman, charges, "The Mob and the CIA have their inside man guiding the House Committee (HSCA) away from the truth, and that man is our latest Conspiracy Patsy. This fifth column coverupist is G. Robert Blakey, HSCA's chief counsel."

Previously, CFP had named Lee Harvey Oswald and James Earl Ray as #1 and #2 Conspiracy Patsies in the continuing coverup of the truth.

"Blakey was chosen by the powerful people behind the assassinations for his HSCA role," Bomfeld explained. "These are the men who directed the shooting of JFK, his brother, Martin Luther King and George C. Wallace. HSCA is being fed and led by Blakey following the orders of these same evil men."

A longtime Warren Commission critic, Bomfeld says, "These power brokers who pull the strings of various Congressmen simply cannot have the public know the truth about what they started in Dallas nearly 15 years ago."

Founded in the Spring of 1977, CFP is an affiliation of researchers and investigators who are experts on these political shootings. They maintain a collective anonymity because, as Bomfeld explains, "our members do not trust their government and its law enforcement agencies. We're very much afraid of the FBI, the CIA and the Mob--the three elements behind the whole dirty business.

"HSCA has been infiltrated by men like Blakey with connections to the FBI, CIA and the Mob. Blakey's assignment is to wreck an honest investigation and to keep the truth buried. He is guiding HSCA back into the continuing coverup story with the cooperation of the controlled national press. The public will see this coverup in action when HSCA unveils its whitewash scenario in August. That's when Blakey's true colors will show."
