August 8, 1978

Mr. Edgar F. Tatro  
51 Edgemont Road  
Braintree, Massachusetts 02184

Dear Mr. Tatro:

Please allow me to thank you for your kind letter of August 3,  
and the several enclosures.

I am particularly interested in the memorandum relating to  
the ammunition because I have been able to get almost nothing  
from Winchester. Would appreciate anything you can provide  
me on this. I am returning a Xerox<sup>®</sup> sheet on this and will  
look forward to any more you can provide me.

I obtained the 70 pages of NAA raw data in 1975 and this was  
recalculated. A Xerox<sup>®</sup> copy is enclosed of our presentation  
on this. Just as soon as a final paper appears I will send you  
a copy. Of course, as you may know the new committee has  
had the NAA redone but the results are not ready for disclosure.

Enclosed is a reprint of the article on Connally's wounds from  
the Maryland State Medical Journal. Am in the  
process of moving laboratory and office equipment and will be  
teaching for about three weeks. Will write you later and try  
to answer your questions and send you the copies of letters you  
ask.

Shall look forward to hearing from you.

Sincerely,

John Nichols
