

FBI-King Section 85 Serials 5990- unrec. after 6053 83 docs 408 pp released

5990 says that Horn personally asked for a copy of the Atlanta police investigative report. Horn personally swore to full compliance without providing this. When Atlanta offered it to Levi it was referred to Horn in 5991. 5992 is a 50pp Atl airtel 43 pp of which are this report. On the routing of copies first is CRD. We did not get from Horn. While there is no doubt that in many cases the claim to 7(C) is justified and proper, the claim to 7(D) is not. That is restricted to the text of the report which was otherwise available as was the content, already in the FBI's possession.

5993X is CBS FOIA request and refusal. Theirs 9/5/75

5999 is dismissal B'ham charges. Includes unserved federal warrant, civil rights offense.

6000, 1 more CBS, on ballistics

6002X on CBS "Lesar" requests. Kilty's addendum does not list ~~1~~ airtel or other report to MFO, of origin, re ballistics. 6th item is one on windowsill only. See 6004X

6004 X is 98 pages of duplicates of my requests. Who drafted letter for Tyler not visible if not obliterated in white.

Note to 12/2/75 letter says denial because pf Ray's pending appeal begins by noting that Lesar is Ray's lawyer.

Ballistics results in 5/17 airtel to MFO. More or less, p. 5

6007 summary Watson, Andrews cases.

6007X 48 pp. CBS compliance, ltr dated 12/1. Tyler waives what he says are \$80 search fees for CBS but refused to proceed for me until he received my check. I was charged and they did not proceed even after offer to pay via Dugan. If they did not charge me in this first release they did in second.

Unrecorded 12/4/75 elsur request on Grapevike of John Ray. **emos not provided.

6016

6009 is a complaint from one who gave FBI info in confidence that a New York Times reporter, coinciding with Crowdsen work on the case, had full info he had given FBI in confidence. Remarkably little concern in Washington after receipt of Tampa F.O. teletype of 12/12/75.

6012X says no comparison shots, photos because no use.???

6013X shows that by 12/11/75 there was not even the beginning of compliance. Murkin files had not even been located. Timing suggests fear of CBS.

6015 more on Andrews

6018 is a memo on my 12/11 press conference to give away some of material I'd received. Peelman's memo is based on an attached UPI story with in minutes of the press conference. Even then he misrepresents what even UPI said. The misquotes are deliberate. I was accurate, in secret they try to make me out a liar out to defame them. They are all paranoids! More 6019 in which they even say they did not comply because of suit. They say press release attached. None is. UPI-134 is, as add on King Inv story (050) Timed at 5:52 pm est. late. say letter to me. None.

6020X More CBS Says they saw and filmed test bullets. 6021X

6024 series on checking of threat in which supposedly \$25,000 shown in Atlanta e oks prior to killing.
