JL- this is a pleasant surprise that will enable me to have help on the files a little longer. It comes about from a phone consultation, no more, with no offer of pay in advance. They had a taped interview Al Chapman gave them with this fellow who claimed to have been on the grassy knoll, etc. Was it for real, they wanted to know. All I did was prove the negative for them by phone: it could not have been for real. I did not even have to write a report. It was all by phone and did not take very long. HW 5/7/79
