

U
Hon. John Conyers, chairman
House Government Operations Committee
House of Representatives
Washington, DC 20515

Harold Weisberg
7627 Old Receiver Rd.,
Frederick, MD 21702

Dear John,

I hope the staffer who goes over the mail will pay close attention to the enclosed letter to me from the FBI which spells out its determination to violate the new Act and then to my letter to the FBI. I regret that my typing cannot be any better. I was much sicker than I thought the last time I saw you and have been increasingly limited in what I can do since then.

All the FBI is turning over the WARA is what it has already been forced to disclose. My letter mentions some of what is relevant and it withheld from me and continues to withhold. This includes, toward the end of my letter, what can make quite a hearing and move the whole subject onto a different level because what it withholds disproves the Warren Report and is what can cause the FBI serious embarrassment.

You have a printed copy of that picture of the shirt collar that shows the only damage to it could not have been by a bullet in Post Mortem, which I gave you when it was published. I enclose a xerox of it. Jim Lesar was my lawyer. He has photographic prints and the deposition transcripts I refer to. Before finally testifying as I say Frazier ^{did he} and the other agents refused to answer such questions unless they were paid more than the prescribed and paid witness fees on the ground that they were being asked for professional services for which they were entitled to be paid!

I hope you see the hearing potential is this that I see! And there is more like it.

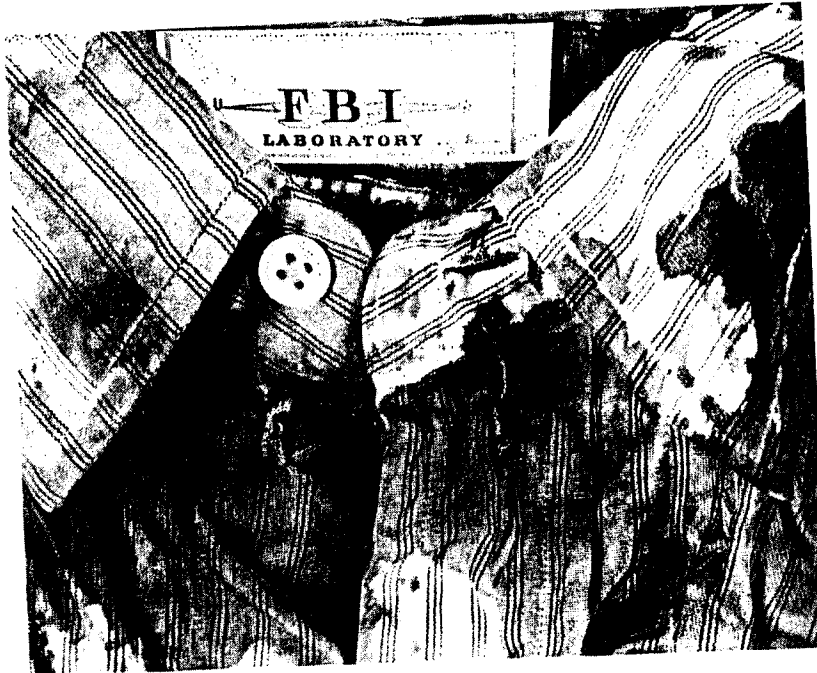

I am sorry that when I wrote and asked for it I was not given a copy of the hearings because at the very least that fraud Posner imposed upon you for cheap publicity for his book then to be contracted for paperback. He is a conscious liar and those interviews of which he boasted had but a single purpose, circumventing the established official fact that proves his book was a dishonest concept for commercializing and exploiting the JFK assassination.

He even plagiarized from the ^{faulty} faulty work of a boy then of 15!

Best wishes,

Harold

Harold Weisberg

This is an actual FBI print, not from the Warren Commission's files, obtained as described in Chapter 30, especially beginning on p.328. It has this caption typed on the back: "Photograph depicting portion of Exhibit 60." It is less clear as part of FBI Exhibit 60 (p.597) but in even that form shows much more than any picture the Commission dared print. In itself this picture, presented here for the first time anywhere, destroys the entire Warren Report and means the falsity could not have been accidental. It shows not bullet holes but slits. It also shows that when the shirt is buttoned they do not coincide and on this added basis could not have been made by a bullet. Note that the slit on the button side is entirely below the neckband while that on the buttonhole side extends well up onto it. The FBI and the Commission both knew their representations were false. The Commission blundered into the truth separately when Dulles asked Dr. Carrico where the President's front neck wound was and Carrico told him it was above the shirt. Carrico confirmed this to me when he also confirmed the obvious, that this damage to the shirt was done when the necktie was cut off by nurses under his supervision during emergency treatment.

 DE 100-10461

Under date of Dec 1963
 Honorable JAMES J. HARRIS, C
 Department of the Treasury,
 concerning an examination of
 1963:

Specimen:

Evidence possessed
 Bartlett on Dec 1963

- Q19 Pair of blue
- Q20 Pair of blue
- Q21 .. Q22 Trench
- Q23 Belt
- Q24 Necktie
- Q25 Shirt
- Q26 Handkerchief
- Q27 Comb
- Q28 Bandages on
- Q29 White shirt

Results of examination:

Examination of the presence of a small hole in the back of the collar and the top of the collar and the hole in the shirt back 5 3/4" below the top of the middle. These holes are 6

The evidence had copper metal. Spectrograph the holes in the back of the of copper.
