But I will show you who did!

Finally, after more than 25 years, filmed footage has surfaced to reveal the true gunmen who shot the President.

Now you will see for yourself on video, the actual assassination.

This is footage taken at the instant of the assassination. From the original Abraham Zapruder film and through the capabilities of slow-motion, you will see the actual shooting of President Kennedy take place. (U.S. Agent using a nickel plated .45 cal.)

When you see this footage you will know these things:

1. There was a conspiracy.
2. There was a crossfire and one of the shots fired was from less than 10 feet.
3. You will see who killed the President.
4. U.S. Government agencies were involved.
5. President Kennedy was shot from the front.
6. Oswald did not do it.
7. The Warren Commission lied.
8. The Russians did not do it.
