

Greer of the Secret Service Killed JFK, according to the Zapruder film allegation

The first recollection I have of this canard is hearing of it years ago from EdDeMar, who had moved to Arizona from Chicago. DeMar was connected with a man named Cooper who was selling a videocassette allegedly showing this based on the Zapruder film. Last year Gary Murr and I think a college professor, both from Canada, were here with the videocassette they made of it. They claim to see this clearly, as I do not even very unclearly.

This is typical of the flat-world solutions in that it ignores all the existing evidence, for example of the shots as reflected on the corpse, and the fact that with all those people looking on ~~and~~^{and} with those in the limo to hear if not see it, not one said anything like it.

Not is there ~~is~~^{any} support for it in the other films.

That Greer turned around was only his job, as was his reaction, if he braked the car.

July 28, 1993

Dear Harold;

Pursuant to our Sunday telephone conversation please find enclosed William Cooper VHS Video Tape on the JFK assassination

I am giving this to you as a gift. Please accept it as such.

I have stilled the tape at the point where Assassin Unmasked flashes on the screen and Cooper then introduces himself and presents 3 uncensored versions of the Zapruder film.

I urge you to please invest 39 minutes of your time to examine this tape + its evidence with great care. As I believe you are honest, courageous, + capable of seeing clearly I can assure you that you are in for an enormous ~~shock~~ shock.

Shining Star attempted in parts to "bleed" the color out of some portions (not Zapruder however) + Cooper's representative, Stan Barrington, informed me that some purchasers expressed annoyance. He

ever there have been no returns after some 5000 sales (at \$35.00 apiece) between the U.S. + Canada. Barrington (in retirement since May-1993) had informed me the many purchasers expressed shock at the graphic proof that William Greer assassinated JFK.

The first, very poor, B+W is from Lars Hanson + John Lear (son of Wm. Lear). Provided that you concentrate on Greer to the exclusion of Kennedy you can see it here very definitely. It does take some getting used to however.

The Japanese version + narration broadcast in Tokyo on Prime Time TV in 1989 (so Barrington informed me) is much better + more easily discernible.

The final version, displayed 6 continuous times, is by far the best + was extracted from the NOVA broadcast of Nov 1988. The division of the screen into two part with the top showing a computer model was Richter's idea. Here the truth is nakedly + shockingly plain. When NOVA got wind of their blunder (in the middle of Cronkite drivel) they withdrew the program from circulation. You can bet your bottom inflated dollar that PBS Home Video will not make this program available in Video stores. Hold please to something about this. I don't think you're another Groden, Rifton or Lane or Livingstone. If you want I'll try to help. But you'll need a lot more courage than ever before. A Hard Copy editor that Coper showed this to + who wanted it broadcast was fired by NBC execs in New York. Her name was Babs Hopper. The truth is much worse than even we had imagined. Very Best Wishes - Paul Schure

P.S.

Harrison Rivingstone was born on May 23, 1937, place of birth unstated. He is a Harvard grad + appears to be a socialist (from his economic pro-Keynes statements) Source is Contemporary Authors.

Please re-read your own enumeration of Federal malfeasance on page 363 of Post Mortem after you watch this film.

Greer + Kellerman were part of a monumental plot. Greer was, in my view, the insurance policy of death in case of bad shooting. Everything was wrong. Three shots from behind (maximum allowed)

failed to hit JFK in back of head & kill him. Two shots from Grassy Knoll failed to kill him. You will note that Greer, who had slowed the vehicle to make for easier shooting, glanced back twice. Once to see if JFK was alive or dead, and then a split second later you see his left arm going over his right shoulder (pistol in hand) firing a round into JFK'S head & killing him.

Now you can understand the urgency in hijacking the corpse out of Parkland at gun-point at all costs by Kellerman.

Please find Greer's date, year & place of birth for me (and Kellerman's data too) & send it to me if you can. There is an unconfirmed rumor that Greer died in Florida in 1985 but no death certificate or death notice has come forth. Best - Paul Schewe
