Probe Needed of Contact Number in Slaying of Martin Luther King

Staff Report

Manhattan’s Russian “Pal” in Dallas Had Worked for Lehmans

Just before President John F. Kennedy was assassinated on Nov. 22, 1963, in Dallas, another man, whose name was never revealed, was reported to be in the area. The name was Marina Oswald. Her role in the JFK assassination has been the subject of much speculation and conspiracy theories over the years.

Orleans broadcast station, WWLL, provided public agency for the assassination action in New Orleans of Lee Harvey Oswald.

14. FACTS: Based upon letters between key Red, LBJ become involved, which suggested that Herbert Lehman had a role in the JFK assassination. The Councilor was able to uncover fully this on Sept. 30, 1965, the assassination of Martin Luther King.

15. CONJECTURE: We interpreted various clues to mean that Martin Luther King eventually would be killed in New Orleans as a de facto figure, being assassinated.

16. FACTS: The plot to kill JFK involved at least three persons bringing in the New Orleans area in 1962.

17. FACTS: The plot to kill JFK involved at least three persons bringing in the New Orleans area in 1962.

18. FACTS: The assassination of David Ferris in New Orleans was involved in the Kennedy killing.

19. CONJECTURE: A full and proper investigation of the strange and very timely death of David Ferris was not made.

20. FACTS: Garrison was left, after the Ferris death, with only Clay Shaw who has been so involved in the battle of Shaw to Shaw lied about knowing other persons involved in the Kennedy killing.

21. FACTS: Garrison later tried to bring Shaw to trial for perjury, because he had proved that Shaw lied.

The Truth About "Law" in Africa

WASHINGTON (WO) — Without support from renegade whites (and Kodd Chasem who said that would be an effective open opposition to "white rule") in Rhodesia and South Africa. Renegade whites not only supply the arms, training and material needed to oppose rule by blacks, they also provide the necessary philosophies. The concept of personal liberty under law is totally unknown in all tribal countries of Africa. In fact, "no law" in the Western sense exists at all.

This is an important truth that one does not find printed in the New York Times, Time, or Newsweek, nor does it appear on NBC or CBS.

Hm-mmmm

WASHINGTON (WO) — Vice President Nelson Rockefeller had admitted that he is a victim of dyslexia. This inherent disability causes those who suffer from it to have difficulty in handling and symbols, which often appear in reverse or upside down ways.

Although unrelated to basic intellectual capacity, those who suffer from it confuse left and right, up and down, tomorrow and yesterday and right and wrong. Hm-mmmm.

SPECIAL OFFER FOOD COSTS

The Councilor has made special arrangements with Security Food Systems for our subscribers to obtain high quality storage food at the old prices. This is a major savings not only when compared in supermarket prices but also in relation to the 1976 inflation factor. This food is packed to last for years, and whether prices go up another 25 percent or 250 percent, you will have a bank in "bonds" against inflation, plus an additional source of good food in event of a general food shortage or breakdown of the economy.

With food prices going up at 14% per year—and possibly even faster—it makes good sense to have a part of your " Savings Accounts" in storage food. Compare that 16% figure to the amount your savings account is now drawing. (Of course, you need some early cash in the bank, and we don't urge you to withdraw everything and put it in food.)

Storage food is food that is nitrogen packed, with the water removed by a process that preserves more of the natural flavors that you find in water-packed canned goods at a supermarket. Will last for years and years.

With storage food, you have a choice. You can eat some of it now to save the high cost of groceries, in many instances saving 60%, 40% or even 50% when all factors are considered, or save it until next year, or 1978 or 1988 when food prices are likely to be much, much higher than now. Or, you can save it for a nationwide food shortage, major strikes, or a time of riot and disorder.

With storage food in your attic or in a closet or under the bed, you are ready to take care of the money you are saving, and a great deal more security about what your family can eat in a time of crisis.

THE ABC'S OF STORAGE FOOD

A. Be prepared in event of a currency collapse, truck strike, civil disorders or national food shortages.

B. You can eat some of it right now, and save tremendously over your supermarket costs for feed. Many of our friends are cutting food budgets this way.

C. Taste is usually better than water-packed supermarket foods.

D. Not as nutritious as fresh garden foods but at least as nutritious as supermarket foods.

E. Excellent hedge against inflation. Bears money in the bank a mile.

Search Launched in Illinois For What Is Said To Be A Coin More Than 10,000 Years Old

KANSAS CITY — Friends of Mr. Touchstone in Illinois and in the United States Congress are being asked to help solve a mystery.

Attached Alleged evidence which suggests that an advanced civilization lived in what is now Illinois (or visited the area) at some very ancient time.

Investigation could establish:
(a) That such evidence does exist.
(b) That such evidence may have existed 100 years ago but has been lost, or
(c) That the whole yarn is unsustained.

Last week Mr. Touchstone was studying the notes of a midweek congressman who has been dead three quarters of a century when he ran across very strange claims. The man in question, Rep. Ignatius Donnelly, had correctly predicted the Russian Revolution, aerial warfare, and 20th century financial troubles. Therefore his notes were being searched for clues to other correct predictions, or of special knowledge of Illuminati forces and their activities.

In those notes he found mention of a "copper coin" which, allegedly was found 114 feet underground at Lawn Ridge, Marshall County, Illinois. It was said to have come from an amazed bottle which passed through strata of various clay and vegetable marine in a two-mile journey. Mr. Touchstone was shown a specimen and undoubtedly suspected that the "coin" was the handiwork of an advanced civilization of great antiquity, which had been long buried — wiped out by a great catastrophe. Here are the "clues," in each case carrying the unusual statement of persons new deceased.

(1) Mr. Touchstone was told that the coin was found by Mr. W. H. Wilmot of Chicago. The coin was "minted" from "pure copper." It is of "unknown" weight. At the time. Mr. Touchstone was shown a copy of "Red Hand in the Collection Plate" and of "Extreme of the World."

(2) That such evident; may be found in "other coins," allegedly found in Kansas City, May 4. 1883. In those notes he found a reference to Ines. (b) That such evident; may be found in "other coins," allegedly found in Kansas City, May 4. 1883. In those notes he found a reference to Ines.

(3) Those persons who said they saw the "coin" at the same time are said to have claimed to have seen it at the same time, said to have claimed to have seen it at the same time, said to have claimed to have seen it at the same time. Unfortunately their names were not supplied by either Donnelly or Wilmot. (4) Apparently one of the three emerged as the single owner.

(5) This single owner allegedly was a tenant in the Sentinon Institute for examination and report. Here he is to Mr. William E. Dubois. The coin, Mr. Dubois is said to have presented the president of the "coin" to the American Philosophical Society. (7) It was also said to have been examined by a Professor J.P. Lesley. Photograph, page 170. (8) Three persons who said they saw the "coin" at the same time are said to have claimed to have seen it at the same time. Unfortunately their names were not supplied by either Donnelly or Wilmot.

Taxpayers Will Hear More Lies About Foreign Aid

WASHINGTON — This year — and the next — will probably be the golden jubilees in publicity about the amount of their money spent for so-called Foreign Aid. The publicity will be that the Foreign Aid appropriations will be about $3,3 billion. Discussion will be focused on this.$3 billion.

This time, other foreign aid appropriations will bring the total to a mind-numbing 320 billion. Most of it is going to lands where the divinity of Jesus Christ is under constant attack.

LONDON — The divorce case in Communist Russia is now even higher than that of the Elvis Presley divorce. It has climbed from 3% in 1950 to more than 30% in 1972.

Read About Council of Churches Crimes in "Red Hand in The Collection Plate" and of Other Efforts of Leftists to Steal U.S. Church Property

This has been the most successful single publication ever issued by Counselor Research. It contains PROOF of what many Christians had only suspected in the past—that Red Revolutionists were and are stealing away untold millions of dollars through their infiltration of denominations. This report tells us what they do and how they do it. It is probably the hardest hitting expose of the World Council of Churches and the National Council of Churches that has ever been printed. Every minister in America MUST read "Red Hand in The Collection Plate," whether or not his denomination is an affiliate of the NCC or WCC. Certainly every concerned clergyman should have a copy. If you think you have already seen ALL the important facts about Red infiltration of church denominations, you haven't unless you have seen a copy of "Red Hand in The Collection Plate."
May Day is the Red holiday. It was the birthday of Communism... and later became a significant holiday for various nationalist movements including the communist movement.

To rock the Rockefeller, Rothschilds, Lehn, Stalins, Waldorf, Blinderbergs, etc., a Councilor will officially begin to receive on May 1, 1975 entries from its readers on the question of "The Green Star Puzzle of 1975."

The second of this annual "Guestwork Puzzle is: "WHAT STRATEGY WILL NELSON ROCKEFELLER USE IN HIS HOOK OR CROOK BID FOR THE PRESIDENCY?"

Entries will be judged on the basis of their correctness for the period from 1975 through such time as Mr. Rockefeller actually becomes president or 1964. No penalties will be given for overestimating Mr. Rockefeller's role in removing Spiro Agnew or his part in the Watergate Affair. Those matters are history.

First prize has been posted by a friend of The Councilor. It consists of $100 plus 2 rolls of stamps about the very strange history of the Rockefeller family.

Mr. Rockefeller's advisors have totally misled him during the hectic time of nominations. By claiming that he is not a candidate, they have protected him from the spotlight of public opinion. But because of Mr. Rockefeller's commercial and communications holdouts, the means exist for temporarily painting his Red. White and Blue in a time of hysteria or crisis.

Here are some of the ways in which Mr. Rockefeller could become president, having a full Councilor

Georges Von Mohrensild remains a big mystery in Dallas Events

By Frank Capoli

A recent session of the Senate intelligence committee heard testimony that the KENNEDY (JFK) assassination was a plot that the CIA and the FBI co-ordinated. In fact, the committee heard that the FBI and CIA were involved in the JFK assassination because of the cold war and the need to maintain a strong united front in the face of global threats.

Kimsey, who had been identified as the man who had shot Kennedy, had been in the US for many years, but he had been a CIA agent for several years before that. He had been working for the CIA in Guatemala, where he had been involved in the Bay of Pigs invasion.

Kimsey was arrested in Dallas by the FBI, who had been tipped off about his whereabouts. The FBI had been investigating Kimsey for months, but had not been able to make any solid connections.

Kimsey was taken to the FBI headquarters, where he was questioned for hours. During this time, the FBI agents had access to Kimsey's phone records, which showed that he had been in contact with several people in the days leading up to the assassination.

The FBI agents were able to piece together a possible conspiracy, but they were not able to make any solid connections. Kimsey was eventually released, but the investigation continued.

This is another view of the unidentified white male who was photographed in Marina City 15 days before the JFK slaying. The man's name was never discovered, but he was later identified as Lee Oswald or even as Jean Boulware.

Thank you very, very, very much

Until the last two of The Councilor's passengers arrive at the houses of one reader, we feel a rather frightening loneliness. Thousands upon thousands of worthy people gather around the nation's work, and with thousands used it in broadsheets, speeches, mass circulations, books, magazines, sermons and other newspapers.

All of the free press, but our loneliness increased when we get notes from people who are not familiar with one another.

I certainly want to thank you people at The Councilor for opening my eyes. I know you risk your lives to do this wonderful work. You're helping me so much that I am renewing my subscription for $4.00 and have decided to pledge $50.00 a month to Dr. Blum.

A Strange Set Of Priorities

NEW YORK — In 1967 the FBI baled most of its efforts to identify and restrict secrecy around the KGB and other Red agencies. It blamed the lack of "lack of personnel" but at the same time it increased its personnel assigned to fighting white separatists in the South. The Councilor revealed that at the time the FBI was spending $7 times as much of its appropriation to fight segregation as it was spending to fight communism.

Saul was appointed of the fact that an individual was trying to get in touch with him. This man would not reveal his identity until he had a chance to observe him and from this Saul inferred that they had met before. The assassin let it be known that he could be contacted in Haiti and in the middle of May 1963 he went to Haiti and followed instructions to stay for three days within a certain geographical area. He stayed at the Hotel Dolore and at four o'clock in the afternoon of the second day he received a telephone call. This was peculiar since there was almost no telephone service at the hotel; one could reach the Penn office but not much more.

Saul was told to meet the assassin at 7:30 that night at a private residence. It turned out that they had met before. During the training period for the Bay of Pigs invasion in Guatemala, a certain man had appeared occasionally at the camp site. It was whispered around that he was one of the American agents and he seemed primarily involved in a type of industrial sabotage. Saul, who was taking part in the invasion preparations, met this individual five or six times in Guatemala.

THE SEARCH FOR A MASTER ASSASSIN

by George Mit-
The Colonel's Niece

The De Mohrenschildts took an unusually deep interest in Lee Harvey Oswald, who was a close friends of George Boothe. George told them about him and his family. This is a very interesting couple who are well known in the Russian community here to Dallas and have many friends of Oswald and of George De Mohrenschildt, who was a close friend of Oswald's. He went on to say that he and his wife had met an officer in several conversations with the State Department and that the De Mohrenschildts were part of the Russian community there, and their relationship with the FBI was very friendly.

Mr. Taylor answered: "Yes, it seemed to be a great deal of influence there." He based his opinion on their desire to return to Russia and live there, their travel behind the lines in their secret agency and the reason why they did not go to CIA headquarters to get their organization behind the lines.

Two FBI agents reported that he was 5'11" tall and that he used the name "Lee Harvey Oswald." The Councilor has copies of numerous pre-assassination photographs, military records and other documents which are divided between 35mm and 5x7". We have none listing has 5x7". The Councilor—In the Cause of Patriotism.

Several students of the JFK assassination believe that there were two persons playing the Oswald role, with possibly one of the real Oswald and the other a look-a-like. The Warren Commission report contains the FBI and other intelligence reports on hundreds of people, many not previously connected with Lee Harvey Oswald or the assassination, some investigation reports on the De Mohrenschildts are missing. This is a very interesting couple who are well known in the Russian community there. They are not connected with this issue of The Councilor to pass out among our friends.

Hugh McDonald was asked why he did not go to CIA officials with his story instead of writing a book and answering: "I saw them and respected them, but something went wrong. I took the story to them but it would be like bringing coal to Connemara." He went on to say that it was obvious that they knew the assassins since they had never seen a picture of him. It is also obvious that they must have had a film on him since he was employed by them during the Bay of Pigs operation. He would also have to be known to the CIA to be able to tour into a private office at their headquarters as he did into Kennedy's, he would have to be known to them to even get in the building. Lee Harvey Oswald's bullet stated after the assassination that the man he was connected with the CIA; this seemed ridiculous but not now that the activities of this secret agency are being investigated. Mrs. Oswald still insists that her son had some intelligence community connections she can prove, according to Dave Martin, personal aide to Sen. Richard Schweiker (R. Pa.) who heads a subcommittee exploring the possibility of an intelligence agency cover-up during the Warren Commission investigation. There is a distinct possibility that, even if Oswald was not working for the CIA, someone was giving him the impression that he was. Did the CIA and other intelligence agencies mislead the Warren Commission or did the Warren Commission deliberately mislead the American public?

PREDICTION COMING TRUE AFTER 6 YEARS

In the February 12, 1970 issue of The Councilor the editor predicted:

A famous defense attorney stands to lose his personal reputation as the result of a case going to the Texas Court of Appeals in which facts of the James Earl Ray trial were allowed to go in trial rather than face a trial.

The Councilor is still batting 96% in his predictions of coming events.

Free copies of this issue of The Councilor:

We are offering our subscribers small bundles of this issue of The Councilor to pass out among their friends.

Copies have been paid for by a small legacy received from the late Florence Hanisch to help carry on patriotic work after her death.

These will be mailed out in bundles of 20 copies each. If you can afford a dollar to pay for the cost of wrapping and postage, we will appreciate it, but if you can't afford it, that's okay. The main purpose is to try to wake up more people as quickly as possible.

THIS IS ONE OF THREE VERY GOOD WAYS TO USE THE COUNCILOR TO START NEW FIRES IN THE CAUSE OF PATRIOTISM:

1. This method—passing out sample copies.

2. Using the subscription slip in each issue to give subscriptions to friends and loved ones.

3. The other is: Talk, Talk, Talk, Talk. Tell as many people as you can who need to read The Councilor—so long as they are willing listeners and don't regard you as a nut. (The fact that The Councilor is read by 7.5% of us have come true in one reason that most of our friends are now willing listeners.)

THE COUNCILOR Page 9
An Ancient Tradition

CHARLESTON, S.C. — After the Civil War the Rothschilds and their agents financed the opposing campaigns of both the Democratic and Republican parties.

Augustus Schenberg (alias "A. Belmont") ran the Democratic party's campaign while heading Rothschild's banking firm in New York. At the same time, another group of Rothschild agents, the Seligmans, ran the Republicans' party and their campaign kitty. Does this 110-year-old tradition of Rothschild control of U.S. elections continue in the present century? Consider these facts:

2. Kahn, Loeb & Co. was (and is) a Rothschild affiliate, operated by families whose ancestors lived with the Rothschilds on the Judenstrasse in Frankfurt, Germany.
4. Goldman, Sachs & Co. in New York is another international banking firm operated by families whose ancestors lived with the Rothschilds on the Judenstrasse in Frankfurt, Germany. This firm appears to be in league with the Rothschild establishment.
5. With great fanfare, the late Sidney Weinberg announced in 1968 that he would collect a big campaign war chest for Hubert Humphrey. At the time Weinberg was the senior partner at Goldman, Sachs.
6. The day after Bobby Kennedy was murdered, Weinberg abruptly halted his fund drive and Humphrey was forced to the one-third of his staff.
7. Strauss and Weinberg joined forces in bankrolling the two presidential campaigns of Dwight Eisenhower, whereas others from Frankfurt's families put up the money for Adlai Stevenson. (Among them: the Stern-Rosenwald group.)
8. Strauss and Weinberg both helped to finance Herbert Hoover's campaign in 1938, while another member of the Frankfurt families (Herbert Lehman) was bringing up a New York Fortune, FDR, with Lehman-Rothschild money.
9. LEJ was brought to power by Herbert Lehman.
10. As a side note, it should be pointed out that the Rosenwalds, Schiff and Lehman all worked money to the Soviet Union and to the U.S. civil rights revolution. The Seligmans supported the first radical civil rights organization in the U.S., the Urban League. The Weinbergs and the Straus were big givers to civil rights groups and communist fronts.

(11) Heinz Stern Kissing, (alias Henry Kissinger, alias Bert) was the Frankfurt establishment's "Max" in the JFK administration. He remained as "Max" under the LEJ administration. Then the Republican came to power as Kissing emerged as a big Republican and was their "Max" in the Nixon administration where he helped on the political throat of Mr. Nixon. These Republican Kissing became their "Max" in the Leslie King (also Gerald Ford) administration. Many contemporary historians regard Kissinger as an errand boy of the Rockefeller's, but the Counsellor believes his connections are even higher in the Leftist hierarchy.

TELL YOUR FRIENDS ABOUT SQUEEZE-PLAY

You may save some lives

A Squeeze-Play unit is a tiny 1-oz. device you can carry in your hand, purse or pocket. It can be used to ward off attackers, shooting a stream of repellent into their faces. They will gas, cough and double up in pain. Tears will flow from their eyes, and they may vomit.

No permanent damage is done to the assailant, but he is temporarily immobilized. A special dye marks him for police identification.

We believe this device is far more effective than tear gas. Hundreds of thousands of men, and women, keep Squeeze-Play within easy reach in these troubled times.

The life you save may be your own or that of a loved one.

A FEW MINUTES WITH WICK VERNARD

This was all it took to amaze and open the eyes of hundreds of pastors who had the good fortune to talk personally with this great Texan.

Few Americans have the ability to remember so much. Vernard put it in a 296-page book with an index that will help you find the same information to your friends. He called the book:

"Conquest or Consent"

This is one of the great books which reveal why rich men, such as the Rockefeller family, Bilderbergers, and the few who control the media and the political structure, have a tight grip on all our lives.

The cover illustration depicts the CFR building which shares a corner in New York with the Vatican U.S. Embassy. If you don’t know what the CFR is, you REALLY NEED this book. If you do know, you will want the book to increase your knowledge of America’s so-called "libertine Governments" and its plans and tactics.

Story on Civil War
Origin Traced To Another Source

PARIS—For 13 years The Censor has printed stories showing that the Rothschild Family probably created the U.S. Civil War to serve their own ends.

Among the exciting and brain-chilling stories we have run on this subject were:
(1) Correspondence of Solomon de Rothschild to his family in Europe during a check-out of family funds in the U.S. on the eve of the Civil War.
(2) Candelberk Johnny — The Censor's original research into the strange activities of Louisiana's Senator John Slidell, before, after, and during the Civil War. He worked for the Rothschilds, and was related by marriage to (a) Angel Schoen- berg alias A. Belmont, and (b) afterward Meath of the Rothschild family.

3) Numerous explosive stories on Anglo-Saxonism, the Rothschild's First Kinsman, who ran the Democratic Party in the North during the Civil War although he could hardly speak English, calling himself August Belmont.
(4) Stories on Carl Schultz, a sidekick of Karl Marx who came into the U.S. to help found the Republican Party, and who served the Rothschild faithfully.
(5) Jackahille Jenny — The Censor's original research into the strange activities of Louisiana's Senator Judith Benjamin, who was a law partner of Slidell.

He appears to have been a Rothschild agent.

Did The Censor just "dream up" such a theory of the origin of the Civil War? Or did others share the view?

Before any member of the staff of The Censor was born, Conrad Siren printed in La Yvelle Frerence (March 1921) statements he said he obtained from Bismarck.

Bismarck, a German statesman (1815-1898) was pro-Christian, of the Rothschild clan, and was suspicious of his lifetime. (See Theophilie, Deutsche Ges- chichte in ihr Jahrb., 5,396).

Bismarck was quoted as saying, in part:

"The division of the United States into federations of equal force was decided long before the Civil War by the High Fi- nancial Power of Europe. These bankers were afraid that the United States, if they remained in one block and as one nation, would attain economical and financial independence, which would upset their financial domination over the world.

"The voice of the Rothschilds predominated. They fostered tre- mendous bony if they could substitute two feeble demo- cracies, indebted to the (Cur- sary) financiers, to the vigorous republic, confident and self-pro- vicing.

"Therefore they started their machinations in order to expel the question of slavery and thus to dig as gams between the two parts of the Republic. Lincoln never suspected these under- ground machinations. He was anti-slavery and he was elected as such. But his character prevented him from being the man of one party. When he had affairs in his hands, he perceived that these sinister finan- ciers of Europe, the Rothschilds, wanted to make him the executor of their designs.

"They made the rupture between the North and the South imminent! The masters of finance in Europe decided this rupture definitive in order to exploit it. To this unique Lincoln's personality surprised them. They thought to easy- dope the candidate woodworker. But Lincoln read their plots and soon understood that the South was not the worst foe, but the Khans* financiers. He did not confide his apprehensions; he watched the gestures of the Hidden Hand; he did not wish to expose publicly the questions which would disconcert the ignorant masses.

"He decided to eliminate the international bankers, by establish- ing a system of loans, allowing the states to borrow directly from the people without inter- mediate bankers. He did not study fi- nancial questions, but his robust good sense revealed to him that the source of any wealth resides in the work and economy of the nation.

"He opposed emissaries through the international financ- iers. He obtained from the Congress the right to borrow from the people by selling to the people "the bonds" of the states. The local banks were only too glad to help such a system. And the government and the nation escaped the plots of foreign financiers.

"They understood at once that the United States would escape their grip. The death of Lincoln was removed upon. Nothing is easier than to find a fanatic to act.

"The death of Lincoln was a disaster for Christendom. There was no man in the United States great enough to wear his boots..."

A Prediction
In the next paragraph of this "Bismarck Statement" was an amazing prediction. Whether Bismarck made it prior to his death in 1898, or whether it was a forgery, it nonetheless ap- peared in print 55 years ago.

The prediction:

"I fear that the (Khazars*) banks with their crookedness and tortuous tricks will entirely control the wobbler rich of America — and will use it to systematically corrupt modern civilization. The (Khazars) will not hesitate to plunge the whole of Christendom into wars and chaos...

(Editor's Notes: For the sake of clarity, we have substituted the word "Kharz" for the incorrectly translated Peones."

"Our reason is that we have learned from ancient experience that beginning students confuse these latter terms with the Hebrews — an Old Testa- ment people who have strife, if any, blood relationship to the modern Khazars. The Khazars rejected Christianity and Messianic heresy almost a thousand years after Christ's crucifixion and adopted a nomadic form of the old Babylonian Talmud as their code. The longest recorded genealogy of any of these people goes back no further than 1300, and is it questionable to call a Turkic-Finnish people, but with other adherences of their bloodstream ranging from the Nordic conquerors of the Eastern Roman in the North to the Tartars. They call themselves "Ashkenazi," as opposed to the Semitic-looking Talmudists who call themselves "Sephardic." The intro- duction of denominational head- quarters has promulgated a fake deal of Christian literature into a denial of Bible history, and the false equation of Khazars with Hebrews. We do not wish to say anything about supposing any Turkic people.

Unfortunately few of their fellow citizens would listen to them. It is a sad commentary on our times that a successful businessman who knows nothing about world conditions can get an audience easily at civic clubs, church groups, almost anywhere.

Too many good patriots have lost their influence by neglecting the pursuit. That is the main reason The Councilor emphasizes money matters. We are not as materialist as many would think. We just happen to think that the wonderful people in this nation who have the good sense to define the Free Enterprise system should be the ones to shrew greatest in its fruits. HERE IS A PROVEN WAY TO SAVE MONEY ON GASOLINE

PASER ALSO EXTENDS LIFE OF YOUR ENGINE

Gasoline is already selling for upwards of 50 cents per gallon. Prospects of an even higher price are frightening. The government is talking about 75 cent and 85 cent gas. If and when gasoline gets above 60 cents a gallon we will not be able to meet the demands for Paser Magnum gas-saving devices.

But if gas were selling for only 20 cents a gallon you should have a Paser Magnum on your car. Reason? The real savings are in longer engine life. The government is talking about 75 cent and 85 cent gas. If and when gasoline gets above 60 cents a gallon we will not be able to meet the demands for Paser Magnum gas-saving devices.

If you can find gas for only 20 cents a gallon you should have a Paser Magnum on your car. This is not a pipe dream. It is based on a proven fact. Gas engines are a long way from perfect. New developments are coming fast, but Paser Magnum is here NOW. Proven by hundreds of thousands of actual drivers in all kinds of vehicles. There’s nothing like it. It’s entirely new, a product of your space age.

More than five years ago, The Councilor knew of the coming “gasoline shortage” in America. That is, why, in 1971, the Councilor became especially interested in a simple little invention that could be attached to cars to make gasoline burn more economically. We had heard of a half dozen or more such devices in the past which worked; the patents for some of these were bought up or they were otherwise suppressed. But we knew who had the patents on the new gas-saver device, the Paser Magnum. Furthermore, we knew the device worked because we placed it on cars and tested it.

The 329.95 cost is quickly amortized.

LABORATORY TESTED - RESULTS GUARANTEED OR YOUR MONEY BACK

Does your engine start instantly? Lolt smoothly? leap when you touch the gas pedal... give good gas mileage... real passing power and acceleration; nobody loves an engine that splits or strains, vibrates, misfires or plages. There’s no pleasure in driving such a car... Digs Big holes in your pocketbook, too.

Let’s fact it,... Gas engines are a long way from perfect. New developments are coming fast, but Paser Magnum is here NOW. Proven by hundreds of thousands of actual drivers in all kinds of vehicles. There’s nothing like it. It’s entirely new, a product of your space age.

BEGINNING JUNE 25, 1972 every Paser Magnum sold by SP Company has been personally guaranteed by Ned Touchstone. Prior to the date, the units carried a guarantee by the manufacturer, but we wish to give our customers this added security. We have used this device and it works for us on our test vehicles. It works for others. We believe that it works in nearly every car in which it is given a fair trial. We believe it so strongly that we are now willing to personally guarantee them, setting back a small reserve from each sale to take care of any returns. Our guarantee begins June 25, 1972.

If after using the Paser on your car for 90 days you wish to return it for any reason, you will get a $25.95 refund. And, if you will fill out a simple report sheet showing that you have properly tested it, you will get a FULL $29.95 refund.

Inserts without tools in minutes on: Cars, trucks, buses, tractors, earth moving equipment, fork lift marine engines, industrial engines and other ignition equipped engines.

AUTOMOBILE EDITOR PRAISES PASER

“During the past couple of years, there have been numerous claims of gasoline savings, but none, as far as we know, has been backed up. The Paser Magnum has an actual savings of more than 35% to 50% of gasoline burned in the engine. And, the MPG (miles per gallon) has been increased by more than 50%.

The Paser Magnum can be installed in a couple of minutes. You don’t have to be a mechanic to install it, anyone can do it. The only tool you need is a screwdriver. The Paser Magnum is warranted for one year from date of purchase against any defects.

The Paser Magnum is the only gasoline saving device that has been through extensive laboratory testing to determine its effectiveness. The results are conclusive. The Paser Magnum is the only gasoline saving device that has been personally guaranteed by the manufacturer, SP Company, and the Paser Magnum is the only gasoline saving device that has been approved by the National Highway Traffic Safety Administration.

If you want to save money on gasoline, the Paser Magnum is the only gasoline saving device that has been personally guaranteed by the manufacturer, SP Company, and the Paser Magnum is the only gasoline saving device that has been approved by the National Highway Traffic Safety Administration.

So You Really Believe That Censors Aren’t Active?

By Ned Turnbloom
HOUSTON—Just because you can see smoking, drinking, or even pornography at the corner drugstore, doesn’t mean it’s dead.

He’s alive and thriving. He works double-time for the little gang of imposters who are trying to save America’s traditions, glory, good will, honor, integrity and search for Truth.

Songs are being rewritten. History—already badly warped by lazy PhDs looking for a quick softball—has been bent to an unrecognizable configuration. References have been taken from public libraries and school libraries. Literature has been expunged of facts and traditions. Even school boards have been conned if they don’t fit into the politically acceptable pattern.

You may naively believe that such censorship and revisionism are evident only in the Soviet Union and Castro’s Cuba or in the backyards of our "new ally"—Red China. Think again. It’s going on around you.

In Virginia—for instance—the state slogan is "Cory Me Back To Old Virginia." It has been a traditional song of good will and its only mention of black people was a kindly use of the word "darkie."

So, what happened? In a monumental display of small-town, amateurishness to the NAACP, Governor Lindsay Helps in 1979 asked that the traditional state song be re-written to conform with NAACP propaganda.

Federal judges have ordered several high schools in the South to quit displaying the Confederate Flag. Any other flag—including flags of enemy nations—can be displayed.

Several schools using the "Rebel" emblem as mascot have been ordered to quit using such a tradition.

Although the Magna Carta was based on the system of law adopted for the United States and is 49 of the 50 states, it is (next page please).

SOME OF THE ADVANTAGES OF A HOME BASED BUSINESS

If you have a home based business, or if you are considering one, then you should definitely get a complete list of reasons. Reasons can be very persuasive. Here is a list of reasons to consider, but it is by no means a complete list. The order of importance varies from person to person:

1. More tax deductions. With careful planning you can buy with deductibles dollars some of the goods, services and products that you need. You can have more of your expenses deducted. (We show you how!)

2. More income. Although this is secondary with most people who operate a home based business, to supplement their other incomes, it is of great importance to those who must have the dollars from such an operation. (We show you how!)

3. Travel. With proper planning you can go almost anywhere on a trip that not only pays for itself, but gives you additional tax deductions.

4. Pax. Not all home-based businesses provide fun, but with guidance you can put more fun into what you are doing, or add a form of recreation which will give you great pleasure. (We show you how!)

5. Write off your tuition. If you are in a home-based business, you will have as many opportunities to buy other products at wholesale as do the owners of big retail stores. (We show you how!)

6. Mobility. Some—but not all—home-based businesses let you set your own hours and permit you to close up and go to conventions or on buying trips whenever you wish. (We will try to help you in making such plans.)

7. Meeting New People. If you are tired of seeing the same old faces and hearing the same old whistles, broaden your horizons! Depending upon what type of home-based business you choose, you will meet new people in your town. In addition, you will introduce you at Free Enterprise seminars and Product Conventions to other Go-Getters like yourself.

8. Grow Travel Thursday. If you don’t already have a way to fly in Europe, Hawaii, the Caribbean or to points in the U.S. or low, goal-free space, then you will want to join with others like you. Together, you can make those trips for far less money than alone. (We show you how!)

9. Understanding Money. Less than 1% of the American people actually understand money. Just opening a home-based business will be insufficient for you to discover and comprehend the secrets of our complex money system and the secrets of our complex money system and the secrets of our complex money system sales forces and sales managers would be worth thousands of dollars to you if you have ambition and are ready to be taught. (We will do this in one of our eagerly anticipated seminars with the A. P. Sherman series, entitled "The Buying Bank: Home Based Business Money Making Machine." This seminar will be held on a Saturday in the City of Austin. The seminar will be held at the hotel which is sponsored by the A. P. Sherman series. The seminar will be held at the hotel which is sponsored by the A. P. Sherman series.)

10. Open a bigger home or fix up the present one with tax deductible dollars. (We show you how—whether or not you are a customer actually come to your home or large numbers. Most home-based businesses take their products or services to the buyer, or use mail, but some actually are part-time retail establishments. Either way, you win!)

11. More cars or better cars. With a home-based business, your car usually becomes a "tool" of your trade and you can therefore step up to a better model, or add more or additional cars. (We show you how!)

12. Meals and restaurant savings. Did you know that in the operation of a home-based business can, in many instances, give you special privileges and discounts on those fun trips as well as on purely business trips? (We’ll show you how!)

13. Better rapport with your children. Parents who own home-based businesses usually enjoy a closer relationship with their children. Children are less likely to grow up as sociables or weirdos, who hate parents and thumb their noses at Honor, Thrift and Longevity. You are with your children more, and they learn to appreciate you. (We can’t rear your children for you but we can pass along some wonderful and inspiring examples.)

14. More funds for college. Not only will you have more tuition money by virtue of your larger income, but you can use a simple and completely legal device to transfer taxable deductibles to dollars to a son or daughter at college. (We’ll show you how. The man who prepared this part of the plan was so successful with it that he sometimes sends home several hundred dollars per month.)

15. Prepare realistically for later years.

Everywhere you see heartbreak and disappointment amongst people who worked 20, 30, or 40 years for a "pension" who only has a fraction of its promised value, because of inflation. We know that inflation will further erode and destroy the paper dollar. With a home-owned business you will always be self sufficient and will keep on stepping further. We will show you how to get on the winning side of inflation. (Once you get to this halfway point, we will show you in simple language the step-by-step methods whereby one small merchant becomes substantially wealthy and another just "gets by/on the same amount of directionless effort."

16. Open a business in a whole new world. With a home-based business, you can convert your life to drudgery, on the one hand. Or, with proper planning, you can open up a whole new world of fun, fellowship and financial fortunes. (-it’s our job to help you etch life, and if you get your kicks from tripping over your lower lip, we don’t want you. But if you like adventure and the floor things of life, you belong on our crew. Welcome Aboard!)

17. Learn the secrets of banking. Understanding money and wealth will prepare you for the next important step, should you desire to move to even higher levels of wealth. You can learn the secrets of banking. In fact, we can tell you — and show you — stories about banking methods, banking strengths and banking weaknesses that even most bankers don’t know. During a recent money crunch, we saw one of our friends borrow money from a bank at 8% and lend the same money back to the same bank three days later at 11%. He enjoyed the laugh almost as much as he enjoyed the profit. (If you are interested in learning these secrets, they will be opened up for you.)

Perhaps the most important service we can perform for the members of our association is one that they least expect to receive. Most Americans, whether in business or not, live in constant fear of the IRS. We can’t remove all this fear, but we can cut it down to size by showing you how to protect yourself from IRS, what to do to minimize the impact of an audit, and how to "inspire" IRS agents to leave you alone. (One of our instructor-owners is author of the very successful publication entitled "How To Protect Yourself From The IRS")

Life is just a little easier for everyone when good Americans understand how to harness demons.

This is Probably the Most Productive $25.00 You Will Ever Invest!

In spite of all the lofty promises, membership in the NAHB would not help you personally if we could not enrich your life—and save you more than the nominal annual fee. We don’t make this claim if you’re knowledgeable or if you’re already a member. Membership in the NAHB would be worth thousands of dollars to you if you have ambitions and are ready to be taught. (We will do this in one of our eagerly anticipated seminars with the A. P. Sherman series, entitled "The Buying Bank: Home Based Business Money Making Machine." The United States Constitution is mentioned in many school texts today. Perhaps it is because pupils will notice that the first, fourth, fifth, and fourteenth amendments are regularly violated by the federal government itself. Perhaps it is because the fourteenth amendment guarantees that white people will have the same rights in jobs, promotions, grants and privileges as colored people — a guarantee that is violated before their eyes. Perhaps it is because the Constitution originally outlawed any such tax system as the federal income tax, or that in the beginning the Constitution required colored slaves as being equivalent to 3/5ths of a free white person for purposes of the census.

Remember the little book which we read in Grammar School entitled "Little Black Sambo"? It referred to a young slave in India. But for some idiotic reason or another, this book has been expunged from literature in many parts of the country.

Remember the sweet old song "Dixie Bell"? It's been rewritten to erase the references to "darkies singing."

The censor slipped up a few weeks ago, however, when the post office issued a series of bicentennial stamps depicting the flags of 50 states. The Grecian Flag and the Mississippi, used by the Confederacy. Steve A. Bose were years out of their official emblem. If the censor had dropped these two offenders, there would have been a very tough problem, because the Hawaii state flag features the Union Jack used by soldiers of George III.

How about Huckleberry Finn? It's a person common to mention Mark Twain's "Nigger Jim" as "Big Jim." Finance.

It is forbidden for daily newspapers to print stories which discuss the stupidity or other lack of qualification of some of the colored school teachers in tax-supported public schools. There's no federal law on the subject, but the 57 facts on that daily which discusses the report of some that black teachers — even if it gives equal space to those who praise such black teachers.

Examples: The Shreveport Journal frequently dared to report the views of eight school principals who complained that many of the black teachers hired under federal court orders — had flunked the subjects that they were hired to teach. The principals reported — honestly — that pupils in such classes often knew more about the subject than their teachers and that this was the reason that students are graduating with inadequate knowledge.

The Journal dared mention such forbidden subjects although it gave even more space to the "other side," — it was attacked by civil rights leaders and professional black educators. They held public meetings to plan a boycott of advertisers in the paper which dared tell a part of the truth.

One colored lawyer — on the public payroll as president of a traditionally white university — threatened to get a federal judge to issue a gag order against the Journal. Here we have a man sworn to uphold the law and presumably trained in the law, wildly agitating to bring about a violation of the First Amendment.

Speaking of censorship, do you remember what happened to John Schmidt when he ran for president four years ago on the American Party ticket? The network knew that if they gave proper and fair treatment to Mr. Schmidt and the American Party, that the party would grow as a realistic alternative to the Republican Party. So they almost completely ignored Schmidt and the American Party? Most Americans never even knew that they had an alternative.

Another form of censorship is demonstrated by magazines and networks in their hatred for the late Senator Joseph McCarthy. They continually decide the long-dead patriot and imply that Senator McCarthy was an untruthful man. But they never report any of the senator's truthful predictions and truthful revelations, so the public has no way of fairly judging what the man had to say. This is the most vicious of all forms of censorship because it is a "secondary censorship." The purpose is not necessarily to create hatred of McCarthy, because he is no longer a threat to the interlopers. But by removing the memory of Senator McCarthy over and over and over, they are getting the message across to other congressmen and senators. The message: "You, too, could die a mysterious death and your name would become synonymous with falsehood and hysteria. We will make sure that you do not talk to us — so that your children and your grandchildren would suffer in the generations to come." The name of Jesus Christ is not to be mentioned in a friendly fashion in the public schools today. It is forbidden. But it is okay to make false claims in behalf of Martin Luther King or Malcolm X, because their liquidations converted them to martyr symbolism for the very assassins who did them in.

Before you read this issue of the Councilor, had you ever heard that James Earl Ray had a bank account in New Orleans? Had you been permitted to read that the number was allegedly changed to conform to a "secondary censorship." The number was allegedly changed to conform to the requirements of the Justice Department. But you tax motley was being used for dirty tricks designed to create hatred between the races and to promote race-mixing as a political movement.

If traditional old state songs are to be rewritten to conform to the new false culture, then here is a cleaned version of the "Star-Spangled Banner.

"Carry me back to the new Virginia, Doin's where you buy acid.

Doin's where they Bic-Vote in Springfield.

Doin's where the Afro-American militiamen sing to get..."

Declaration of Independence is Obsolete to 124 Congressmen

PHILADELPHIA — A delegation of 10 congressmen, representing 33 House members and 32 senators, signed a "Declaration of Independence," using bicentennials as dates and claiming off-duty "traitor" and "spy" from 200 citizens on the streets outside.

The document, a parody of the language in the Declaration of Independence, signed 200 years ago in the same room, calls for "one global community, dependent on one body of resources, bound together by ties of common humanity and associated in a common adventure on this planet Earth."

The delegation’s purpose was to promote the World Council of Churches and other groups favoring global government. A formal call for independence is planned for July 4, 1976, the anniversary of the signing of the Declaration of Independence.

The Interdependence Declaration asserts that "it is essential to establish a new world order of cooperation and justice, an essential means of national prejudice...that all people are part of one global community."

Author of the preamble was Dr. Henry Steele Commager, a well-known, left-leaning historian.

News of the incident has been missed by the nation’s press. Stories did not appear in either the New York Times or the New York Post.

The Philadelphia "inquisit" gave it front page space in reaction to the citizen protests led by evangelist Dr. Carter, who told the crowd "many of the men will not be able to change our determination to live under one world government."

"This is a great moment in the history of the United States," said the woman, standing in the balcony with her husband.

"The new order in which is a Declaration of Independence — surrender."

"In my opinion," said the woman, "Joseph Clark began the same as the Interdependence signers in this congress, as an elderly man in the balcony to protest. "He's the real traitor."

"Take her away, take her away," said the preacher, with tears in his eye.

"There are threats of attack from the National Park Rangers resulting in an additional peace treaty with the community," said the senator.

"This is a great moment in the history of the United States," said the woman, standing in the balcony with her husband.

"The new order in which is a Declaration of Independence — surrender."

"The Interdependence document is a new world order," said Robert M. Bantley, a broadcast engineer for the Library of Congress. "This is a movement of this one-world order."
