PURPOSES OF THE AFC

The AFC was organized in Philadelphia on August 10, 1950, for the following purposes:

1. To maintain the national, territorial and political independence of the United States.
2. To preserve the sovereign right of United States citizens to govern themselves thru their duly-elected representatives under a republican form of government.
3. To promote respect for, and undivided allegiance and loyalty to, the Flag, Constitution and Government of the United States of America.
4. To oppose and expose, by all lawful means, totalitarian Fascism and Communism and the collectivist ideologies upon which both are based.
5. To resist the imposition of any form of world government, federation or other such union, and any program or organization which would supersede or in any way limit the authority of the legislative, judicial, executive or military establishments of the United States.

"LINCOLN PROJECT" + "OPERATION '76" = GOVERNMENT BY TERROR

Time for American People to Demand Protection of Congress from Second King-Triggered Chaos Blueprinted by Communist Party, U.S.A. and Exposed in Exact Detail by this Newsletter in 1956!

Dear fellow-American:

Twelve years ago the Central Committee of the Communist Party, U.S.A. launched its current drive toward outright capture of the Government of these United States of America. In December, 1956, this Newsletter published its special report titled THE "LINCOLN PROJECT" - BLUEPRINT FOR CHAOS. In this exclusive expose we detailed the Red battle-plan and precise timetable for achievement of a Soviet America, including the step-by-step transformation of the Civil Rights Movement into a revolutionary terror arm for Party objectives and Party-directed mass national upheaval.

Our report, compiled from patriotic underground sources operating within both the Party and its extensive 'front' apparatus, pinpointed 1965 and 1968 as target dates for pre-planned key Communist advances here on the domestic scene. April 15, 1965— the 100th anniversary of the assassination of President Abraham Lincoln — was fixed for enactment and signing of a voting rights act drafted (in 1956) by the legal staff of the Communist Party itself. This current presidential election year, 1968, was given for the fielding of nationwide Red-directed political activity which would link civil rights, labor and peace leaderships to the rise of a new party of the radical Left. As its mass power base, the party would depend upon the organized registration and ballot strength of hundreds of thousands of illiterates whom the voting rights legislation would enfranchise thruout eleven southern and border states!

Our report was not confined to describing these long-range objectives in the scheme of an ultimate Kremlin conquest of our Nation from within, but set forth in some detail the Communist Party's pre-planned development of mass lawlessness and mass terror as tactical weapons for coercing the U. S. Congress into accepting the Red-drafted voting rights legislation nine years later. So accurate was our information that we were able to include in our report the precise operation—the mass invasion of a target southern city—which was designed to bring Congress to its knees, as well as a description of the advance south-wide probing assaults by which that city—

Selma, Alabama — would be selected!

Immediate Congressional action could have broken this conspiracy almost at its inception. We urged a fullscale investigation and public hearings to expose and document the then-known and proliferating links between the Communist Party, U.S.A. (including satellite organizations under its direct discipline and control) and the preponderantly non-Communist main-body of the expanding Civil Rights Movement. Instead, Congress responded to the very first promptings which foreshadowed the planned anarchy and terror of the future by trespassing both state and individual rights in the restrictive Civil Rights Act of 1957. Almost concurrently, the man whom the Communist Party selected to serve as national front leader and coordinator of its Lincoln Project forces, the "Reverend" Martin Luther King, was undergoing special training at the Highlander Folk School, the Party's since-defunct orientation center at Monteagle, Tennessee. To our 1956 Report was added photographic evidence of King's attendance at classes with high-ranking Communist officials, yet the entire Red operation proceeded, unpublicized by the mass news media and unhampered by any branch of Federal officialdom, behind the carefully preserved facade of a simple effort toward school desegregation in Dixie!

Our own subsequent efforts to alert the Nation to the Red-plotted onslaught against established law and order at federal, state and local levels continued unheeded between 1957 and 1963, while the tempo and intensity of Lincoln Project demonstrations, marches and law-breaking increased and assumed the patterns which came more and more to reveal the logistics of the expertly pre-planned para-military insurrection toward which the Project pointed. By 1964, the Communist Party, U.S.A., operating thru its planted agents within essentially non-Communist organizations (such as NAACP) and a dozen-plus newer and violence-oriented groups and committees under complete Party discipline, had taken all but total operational control of the Civil Rights Movement nationally, while its hand-picked and 1957-trained master agent, Martin Luther King, dominated the operation in the South. Using his own organization, the Southern Christian Leadership Conference as his specific power base, King supervised the operations (precisely described in our 1956 Report) by which Selma, Alabama was selected for invasion a year later, maintained and developed contact and liaison with both domestic and foreign leaders of the then-mushrooming worldwide Black Power "International", and began joining the issue of desegregation to the peace and anti-poverty programs pressed by the Communist Party and its political and religious allies of the "New Left". Here, again, our 1956 Report exposed this outcome—the linking of the Civil Rights Movement to well-recognized objectives of Communist Party (and Kremlin) domestic and foreign policy—as the concurrent result of Lincoln Project machinations, which would prepare the way for the next steps toward Red takeover of power in these United States following enactment of the 1965 Voting Rights Act which was the Project's chief goal.

With Congress under the domination of an overwhelming liberal-leftist bi-partisan coalition, success of the Lincoln Project was actively abetted by further weakening of local and state authority in the area of self-government under provisions of the sweeping Civil Rights Act of 1964. The Nation was bombarded by the knowing lie that its passage would go far toward easing racial tensions and restoring peace and order to communities hard-hit by mounting marches and street demonstrations of impatient civil righters, even as Selma was being set up for virtual capture by organized law-breakers intent upon coercing further concessions a year later.

Following the infamous march on Selma, and as Congress considered the Voting Rights Act which nine years of Communist Party planning had put before it, we again mailed a copy of our 1956 Report to each and every Senator and Representative, so that each was well aware of the nature of the legislation being pressured for enactment. We also prepared a provision-by-provision analysis of the Act itself, showing that it failed in only one single respect to conform to the specifications laid down in the legislation drafted by the legal staff of the Communist Party, U.S.A. and made its Lincoln Project assignment nine years earlier. We published this analysis in AFC Newsletter #68. Congress was pressured by the threat of nationwide disorder to ignore the Red origin of the bulk of the legislat-

ion and, with utter disregard for the consequences, handed the Communist Party, U.S.A. and Moscow the potential for achieving that balance of political power which the Lincoln Project strategists blueprinted as the key to major ballot-box victories in 1968 and succeeding election years.

Almost immediately upon its triumph, and aided by a U. S. Supreme Court decision (relieving Red leaders of the need to register with the U. S. Justice Department) which was all but coincidental with fruition of its decade-long political quest, the Communist Party, U.S.A. came out from underground and, in June of 1966, met in formal national convention in New York City. There the "New Left" (the coalition of radical Leftist racist, religious and peace groupings which the 10-year Lincoln Project had brought under operational Party control) was for the first time publicly identified with the official Party program for withdrawal from Viet Nam, unilateral U. S. disarmament, the organization of joint anti-poverty/"black power" agitation and the development of a new religion and super-church leadership under which all present faiths should be phased into the secular activities of an ecumenical social world gospel.

With this publicly-proclaimed program went plans for organized mass terror of a kind never before encountered in these United States of America. Once again, as in 1956, we were able to publish details of "Operation '76", the Communist Party's new 10-year blueprint for accomplishing the total capture of the U. S. Government initiated by the Lincoln Project, in AFC Newsletter #72, August, 1966, a year before trained Communist agents unleashed pre-planned tactical assaults to test their own logistics and probe municipal, state and federal defense responses in such selected target cities as Detroit, Newark, Cleveland, Rochester and Milwaukee. Unlike 1956, our advance report of the oncoming horrors scheduled for 1967 and 1968 led to official recognition of the peril in Philadelphia, Chicago and Los Angeles. All three cities were included on the Party's 1967 assault agenda, but were spared the fate of the others by effective police counter-measures which repeatedly kept overt "incidents" at a minimum and in all instances blocked both the formation and deployment of pre-riot forces. The law-abiding residents of these three leading U. S. cities owe their safety also to their respective mayors (all Democrats and liberals, but now aware of the true nature of the menace ahead), who have thus far stood firm against tremendous pressure from varied sources to place political restraints upon their law-enforcement agencies.

Our Newsletter has had to yield to the greater demand of reaching top civil and police officials at municipal, county, state and federal levels, and of convincing them of the outright Communist nature and objectives of the planned internal upheaval which lay ahead. This could best be accomplished by placing in the hands of such authorities a complete file of our own pre-published reports on the conspiracy, including our initial exposure of the Lincoln Project and Operation '76 in which the Communist Party's blueprints for capturing our Government by the mass demonstrations and lawlessness of 1963-65 and the organized mass terror of 1967 and 1968 were accurately detailed and timetabled by us long years in advance of our present plight.

The results of this intensive effort to help prevent the Communist Party and its field agents from achieving the maximum political advance which its Lincoln Project planners charted for 1968 almost twelve years ago have been gratifying from municipal and state levels, where a fine response has been obtained from an increasing number of elected and appointed government officials. As previously noted in the cases of our own city of Philadelphia, Chicago and Los Angeles, mass violence (and in Philadelphia, the planned poisoning of ranking police officials called to riot duty!) was thwarted by administrations of quite liberal persuasion. Most encouraging of all, police authorities in a majority of our Nation's urban centers have, with increasingly firm backing of mayors, councils and other civilian officials, prepared themselves for action in preventing, rather than putting down, local insurrections of the kind that devastated Detroit and Newark last year. Both the weaponry and procedures which will be employed to safeguard the lives and property of all law-abiding citizens (and those who constitute the majority of the Negro community are being especially victimized by the Red agitation) will be those normally demanded for dealing with home front aggression directed by a long and well

will be those normally demanded in resisting home front aggression directed by a long and well established fifth column serving the interests of a foreign enemy.

And once again it is the "Reverend" Martin Luther King who emerges as the key front man in defining the demands of the revolutionaries and igniting the fuse which will set off the nationwide series of explosions planned as the means of achieving those demands twelve years ago. As the march on Selma, Alabama, signaled the outbreak of a wave of overt lawlessness and violence which was steadily escalated thru the "hot summers" of 1965, '66 and '67, so now, in 1968, will King's even more carefully planned April march on the Nation's Capitol serve as the cue for initiation of the expertly devised and timed program of Red front action by which its most violent elements are to lay literal seige to the pillars of the U. S. Government itself.

The basic planning behind the Lincoln Project and Operation '76 has been, as we have emphasized and re-emphasized with each of our advance reports, not to overthrow the Government by direct action of armed force alone, but to take over operational control of the executive, legislative and judicial machinery by which the Government functions. Mass terror in the streets accompanied by a rising crescendo of support for the acceptance of the terrorist leaders' peace terms by less violent Red front groups and non-violent organizations wedded to the program of the New Left during the decade of Lincoln Project infiltration and intrigue— this has been, is, and will continue to be the formula by which the Communist Party, U.S.A. hopes to complete its Kremlin assignment by 1976!

The Red timetable for conquest of the United States is actually well ahead of schedule. The hour for successful counter-action grows late and, if missed, may see our Republic succumb to the forces of World Dictatorship which are varied, but which share a common goal in overcoming the United States of America as the last barrier to universal conquest.

This Newsletter, with which we pray we shall be enabled to resume regular and far more frequent publication, finds us debt-ridden and in URGENT AND IMMEDIATE NEED of EMERGENCY financial aid in continuing the struggle. We have worked thruout the past fifteen months on the support of a few longtime subscribers and several thousand dollars in personally borrowed funds and credit. With this, we have reached hundreds of responsive public officials with the full details of Communist planning since 1956, and perhaps close to 100,000 leaders and active members of patriotic, veteran, religious and political organizations and the general public. Now, to carry on, we need the help of every old and new subscriber, and of every American reading this Newsletter for the first time, both to relieve the debt burden we are carrying and to reach at least a majority of the adult reading population of the Country with the FACTS behind the Lincoln Project and Operation '76.

The advance tactics and timing of the Red take-over, as we reported them to the American People from the year (1956) of their blueprint, can be studied in depth and detail in five past Newsletters which exposed all phases of the conspiracy (racial, religious and politico-economic) years before its achieved and yet-to-be-won successes. To help us clear our debts and publish on a MONTHLY schedule during this crucial election year, I earnestly ask every old and new subscriber, and every American reading this copy, to order at least one set of these five reports at \$1.00 per set. In ordering, ask for our LINCOLN PROJECT FILE. And please respond generously. Your support must be IMMEDIATE and substantial if our work is to continue and bear fruit. Additional help in the form of subscriptions (\$4.00), orders for additional copies of this issue and gift contributions from longtime friends of the AFC who know of the opposition pressures and hardships under which we've been laboring will be especially appreciated in meeting our heavy immediate needs.

Yours in the struggle for National Survival,

W. Henry MacFarland
