Dear Fellow American:

The Publication Department of THE CONSERVATIVE SOCIETY OF AMERICA is proud to announce the third printing of today's most urgent textbook for informed Americans:

AMERICA'S UNELECTED RULERS  
by Kent and Phoebe Courtney  
177 pages, paperbound; \$2.00 list

We think that you will agree this is unquestionably the most complete book now available exposing and describing in a cool, reasoned manner that insidious group of Internationalists within the American Government - The Council on Foreign Relations.

Favorable response from readers has been immediate and enthusiastic:

"This book is one every American citizen should read . . . I am one who personally believes AMERICA'S UNELECTED RULERS is an accurate presentation. . . I wish we had more authors willing to investigate such 'sensitive' subjects."

--Congressman John H. Rousselot of California

"One of the most important books of our day . . . Every true intellectual, every genuine American, every man who would understand 'the cause of things,' should read this book. Like a clear inexorable alarm clock it strikes the political hour. God grant that it may awaken all who sleep before it is too late! - for otherwise they will awaken only as chained slaves."

--Professor E. Merrill Root, Author of  
"Collectivism on the Campus" and "Brain-  
washing in the High Schools."

Here are some of the policies the Council on Foreign Relations advocates, based on their own publications:

"A New International Order" which stifles and crushes, through such agencies as the United Nations, the Atlantic Community and the North Atlantic Treaty Organization, the concept of America as a free and independent State.

(Please turn to page 2.....)

Foreign Aid to Communist Countries: The CFR advocates an increased and intensified program of Foreign Aid, and they would "AVOID making aid contingent upon political commitments to the West."

Disarmament: The CFR recommends that the U. S. "Fully explore Soviet proposals for complete or partial disarmament," and "Negotiate on these proposals, perhaps directly with the USSR in secret . . ."

The membership lists of The Council on Foreign Relations, reprinted in their entirety in AMERICA'S UNELECTED RULERS, read like a Who's Who of American governmental planning.

But did you know that a number of members of The Council on Foreign Relations have, at one time or another, been members of Communist-front organizations? A full analysis of questionable affiliations of CFR members is contained in a special Appendix to AMERICA'S UNELECTED RULERS.

For example, here are the names of just a few of the CFR members who, according to Congressional investigating committees, have been associated in some way with two or more Communist-promoting activities, or with activities sympathetic to the Communist cause:

Owen Lattimore  
J. Robert Oppenheimer

Ralph J. Bunche  
Vincent Sheean

Rev. Reinhold Niebuhr

These men, and an ever-increasing number of professional "planners" who think like them, are actually directing, through The Council on Foreign Relations, the disintegration of America from within.

And because the Council on Foreign Relations is a semi-secret organization, not openly avowing the subversive designs it has on America, the average American knows little or nothing about it!!!

Fierce determination, coupled with tireless and intelligent research on the part of Kent and Phoebe Courtney are the ingredients that have gone into this book. Those of you who know the authors, either personally or through reading their hard-hitting newspaper, THE INDEPENDENT AMERICAN, know their dedication to the cause of keeping America a free and proudly competitive Nation.

AMERICA'S UNELECTED RULERS is a book that needed to be written. As patriots, you can share with me the mission of making it available to as large a segment of the American public as possible. As businessmen, you can be very proud to offer this book for sale in your bookstore.

May I suggest an initial order of 10 copies of AMERICA'S UNELECTED RULERS at our special bookstore discount of 40% below the list price of \$2.00 per copy. Terms: Net 30 days.
