My folks can't help me because they have a limited education and they wouldn't know how to compose a letter asking for help. They wouldn't know what to say or who to ask.

If I didn't have your help I would be a forgotten man with nothing behind me for a crime I didn't do - so please don't find a person whose very life depends on your help. Thank you, and I pray that somebody will listen to you and come and talk to me.

God Bless you all!

Dear Mr. & Mrs. Dool,

I am enclosing two copies of letters I wrote. One of them I sent to the attorney when I fired him. I also sent a copy of the firing letter to the judge with another letter telling him I wanted somebody else defend me.

This will explain to you why the attorney didn't put up a decent defense for me. When you get all the papers I am sending you about the case I would be

as happy and pleased if you would show them to your attorney.

I want your trial.

I was subjected to an ORdeal.

Everything die cross and proves that I have been found and reinterred to the penitentiary.

I I didn't have some hope I believe I want just about

die. But as long as I have your help I'm going to fight with every power I have to get free, and to come home to you, where I belong.

I wish in my heart you

and let me move up there with you last year when I asked you. For I am sure

I would be in the news in my night now.

Now, if you can get one national magazine to insert rights this case I promise you that I will be released.

They are not afraid to write the facts and the truth, so please write to them on my behalf.

When I get to prison my mind will be heavily covered and I won't be able to beg for help and that is why I have to do it now
