Dear Mark,

I write you at the station because this should reach you a little quicker sooner.

The package you sent is quite worthwhile. It makes me glad that the assistant state's attorney was suddenly called to a court and my appointment is reset for Monday afternoon. Skeleton staff. Today is a legal holiday in Maryland. Many thanks!

Your letter is informative. I'll write you about it as soon as I can. But on the chance that someone comes who can <sup>mail</sup> this for me I want to call to your attention that where you suggest that a caller could have left a bug at Mary's, in his 12/8/92 to you he says he has a "phone man" in Dallas and that where "Eileen and her crew" had been "They left bugs behind." Who is Eileen, and do you know where they were? Of who Peter is? He speaks of both as though you know them. In the same letter he refers to "P.I."s as though you know what he is referring to. He is referring to a source of information. These are from his December 8, 1992 letter he concludes by asking you to "decode" me. Perhaps he sent you what I wrote him that he could not understand? Hell, he could have asked me if that was it. But then he cannot understand comprehensible spoken words if they are not what he wants. (In the same letter he refers to C & G press kits on his press conference. If you have one I'd like to see it.)

You also refer to his March 2 letter to her. It was not enclosed and I do not have it.

He refers often to a deal with the feebees and to a cooperative arrangement with the FBI. Do you believe it? Rookstool denies it. What I warned Harry against when he told me he has them helping him is that they'll use him, not help him.

The same letter refers to an Annenberg and a "Pierre" followed immediately in parentheses by (Harold?). Who are they? He says they are all in it together and "Pierre plotted against FDR." DuPont? Of that era would Annenberg be Moe? Who died in jail?

Do you really believe he has that kind and that extensive an investigation going on?

I have trouble believing he is not crazy and I have just <sup>as</sup> much trouble believing he is egomaniacal enough not to suspect that he is being used by all of them, especially those H.L.Hunt's sons fired and sure would like to get even.

I have never known Mary to pretend to be other than she is, about which he was not secret.

I'll return to this and your letter after I get today's mail handled.

Again, many thanks!
