

7/15/72 Dear ~~Mary~~ From the clips on the Eagle Pass munitions deal, I take it nobody on your enterprizing papers got in touch with George De M. I thought for usre Earl would. But maybe we all assumed he would know and he didn't. It is rather late, for Georgie has had time to think, maybe even go on vacation. However, I think it would be worth a try still. If Earl can't use it, I know several reporters, among others, who might be a bit interested. I am keeping a rudimentary file on this if it interests you. Guess Jim and Bob are doing more and better. If you can find time, nudge ~~George~~ Earl and remind him of the testimony and old Jenner's typical performance, letting ot pass as "Tito". Other stories have Harper lending Kessler his plane to fly from Eagle Pass to Houston, where he just left the plane after getting there, it seems from the papers...There is a new Dell assassination novel I've not seen, "The Parallax View", Loren Singer....One of the conspicuous absences in reporting on The Watergate Caper is the absence of a picture of Hunt. Do any of you have Bay of Pigs files with Frank Bender's picture in it? I suppose he was careful to avoid, but one can't be sure. I'm ~~pretty~~ confident they are one and the same and that Barker is his first assistant on that disaster, Bernie. Best, HW
