

JDW: Your sheet of NYTimes ~~rip~~ clips on Ricardo Unuez-Portuondo

I do have files on some of the characters named. This has to represent sub-Tamany politics.

The elder Nunez Portuondo was Batista's last ambassador to the UN. He was also the first head of Cuban-Americans for Nixon-Agnew, as I recall the name.

This made him the associate of those farthurest to the right in right-wing Cuban and American politics, like the Bringuiers, Walkers and Hargises.

If Fernando Penabaz opposes it must be really terrible.

Penabaz (Duke law) was one of those faking at the time of the JFK assassination and at RFK's. It is in COUP and hence not printed. I have about 15 pages on how Penabaz ran the ass off the FBI, denying all the time he had said what he then said again. He thus became Dade County GOP chairman.

And Hargis' biographer and foreign-affairs expert.

What this really seems to suggest is that more than Nixon's spirit haunts.

I hate to think of why and how.

There is no Ford debt to these ultrafarouts. AKA crooks.

I have a file on the pro-Nixon 1968 group. Haven't looked at it in years.

My recollection is that a CIA link can be imputed through some of the participants who were or had been CIA. Doh't depend on thism though.

Amusing footnote: only GOPs are quoted as opposing this GOP appointment.

Either no Cuban Democrats or they are the minority of non-stupidities.
