Dear Harold,

Thank you for answering so quickly. You surprised me. I got all the enclosures sent to you, too. Very good.

Yes, I know that there will now be very serious road blocks, as far as publishing is concerned. There have always been road blocks, as far as I am concerned; and what I wanted to publish. Now, it would appear, I have even the legal aspect to overcome.

I have thirty two (32) pages of the Pallas exercise, on official CIA print-out sheets. I got that information, for my files, in 1964. The print-out lists all names, times, training, places, monies, and is 32" X 18", each sheet. That will give you some idea the extent of information contained in the report. I can ask that a copy be made available to you, if you are interested. My Court records are a matter of public record, so no one should have any problem securing copies of all court records. The courts I have been in are Circuit court, Orlando; Federal Court, Orlando; Lower and Circuit courts, Chattanooga; Lower and Circuit courts, Newport News, Va.; Lower and Superior Courts, Rhode Island; Lower and Circuit courts, Hampton, Va.; and last but not least, Federal Court Norfolk, Va.

My criminal record involves thirty nine charges in four years. eight in OEL, thirteen in CHA. five in Newport News, Va., five in Washington County, R.I., and eight in Hampton, Va. I filed against CIA in OEL and again in Norfolk, Va. The case in OEL was dismissed without prejudice in 1978 (filed in 1977), because my wife and I were in flight for our lives and could not attend a hearing. The case in NOR was dismissed because Judge Kellum was convinced by Wilson, of CIA and Prince, of FBI, that I would be in prison in Rhode Island for at least five to ten years. That's a fact; I have a tape of a conversation I had with one of the court secretaries, who was leaving that job. She tells, on the tape, of the entire situation in Kellum's court, as she knew it, from her vantage point of secretary.

I might add, I was exonerated of all charges listed above. All except the last two. I have taped evidence from a friend in CIA, that my defense attorney, the sentencing Judge, and the Commonwealth attorney, were all paid off by CIA, to find me guilty, in 1981. That's not a pipe dream, Harold, that is fact. But--Can I use such evidence?

What records you have seen, are nothing. I have recent current stuff that I keep on hand. I sent only enough to let you see a bit. I have reems more. 177 pages of Secret Service Reports, All of my Journal, embracing 25 years of activity; pictures, memos, orders, tickets, a day to day report of all activity, etc. I have originals of all promotions Captain through Brigadier General. I used the B/G original to obtain the exoneration of impersonation of an AirForce Officer and CIA employee, in 1978. Judge Young did that for me, in his court USDC, OEL.

Kim did know you have serious medical problems. He told me about that item.

Oh yes, what did CIA send me, after the letter, you read, was sent three years ago? Absolutely nothing. NOTHING! Despite repeated attempts to secure any information, they sent nothing. I sent them, in 1977 (May), a full copy of my journal. That was sent to Admiral Turner and to Pres. Carter. I have return receipts to prove it. I hand carried a copy of my journal to the Assassination Committee Dec. 1978, expecting them to ask me to appear. Robert Blackey never responded -AT ALL! Three of my men were killed and one was wounded so badly, he remained in hospital for two months. The fifth man has never been seen again. And who can blame him. All as a direct result of that journal. In addition, Mr Dwight McSmith, his brother Dwayne McSmith, my wife and I, all were in DCA the day that journal was delivered. The McSmith's were warned by the deputy commander of Camp Peary, to have nothing further to do with me. To date, they have complied. My wife and I have both experienced incarceration, ever since. My wife, six months; I have spent 64 days in CHA, 100 days in Newport News, 120 days in Rhode Island, and now these past 19 months in the Va. penal system. Obviously the "com any" does not want me free. They have done all they can to discredit me. It took me five years to prove I had ever been in the A.F. Five years to prove I had been in CIA. That's from 1973, when all this began.

Best I let my records speak for me. I will ask my friends to let you have a copy of the journal and Secret Service packet. The Dallas affair is in the No. two bundle, marked "click beetle." There are three bundles. Good hunting!

Let me know how you are progressing. And, thanks again my friend.

Yours very truly,
