Deaf Al,
I'm no wing the end of the raft of by book on Posner's book and rive been looking for so cone who can do some library research not possible locally. Can you find the time to do this for me? I presume it would have to be at the main library , perhaps also in a law school library.

There is what a pears to be out of the ordinary about him and it interests me.
In a $1 \phi 3$ Chilrib interview Posner said he graduated with honors from Berkeley/ law
Ipa school, California, UC. I'm told that the current lartindale, Hubbell law directory says he want not there for lav school but to I think Gannon, in Erie, Pa. He did go to Berkeley as an uncorgradudte. Pion there, after passing the bars in 1979, he Went immediately a Wall Street film, He told the ChiTrib only that he left there after two fears to aaa form his own firm. Is it not to wonder whether his leaving was voluntary?

He had this supposed firm for two years. He took what he'says was a pro bono case acacia st the liengele family and the German government. "That cane to nothing" or"Noathing earle of that $/ /$ ss all he said to the rib. Also rather an odd way of putting it. He then did his Hencele brook. I mar be wrong in my recollection of when it came out but it was tin: first of the four books he had published by three years ago.

Anon other questions, how much law did he practise then and what was the real cause of the end of that Mengele suits? Plus, how did hr pay the costs, if he did? Perhaps the Times index would be helpful on that.
What I'd like is copies of what is said about him in Who's Who (probably in the east or in New York j, what ward Martingale Hubbell says about him back to about 1980 and ditto for Contemporary authors to where he first appeats, band any other similar directory. Plus what the 'rimes index shows.

If you can do this, please let me know, and also the costs, so I can pay you,
Thanks if you can, and best wishes,
