Dear Mr. Curry,

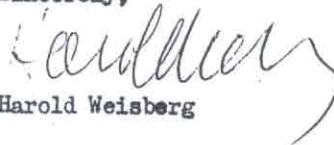

From the official non-conspiracy theorists to the multitude of those who theorize there was a conspiracy that killed JFK, the common factor is that they all disregard or misrepresent the probative official evidence.

There can be no responsible theorizing that does not at the least conform with this official evidence.

From what I know of that evidence I believe your informant is a would-be Kerry Mason and hasn't the slightest notion of what that evidence is.

I also believe it eliminates the possibility of what he has told you, that the Freemasons did it.

Sincerely,

Harold Weisberg

Dear Sir:

This is further to our previous correspondence. I want your opinion on the information we received regarding the assassination of John F. Kennedy. The informant is an American Freemason and the following is partly what he said:

"American Masonry essentially was the controlling factor in all facets of American life - from organized crime to politics. That membership includes politicians and the mob alike - all striving for mutual benefit and protection. Any threat to the system would be disposed of accordingly by the component members equipped to do so.

Who do you think killed John F. Kennedy? We did. Do you know why? Because he was a Catholic and his administration was imposing policy contrary to the interests of our brotherhood. Witnesses were disposed of accordingly through the resources of the agencies involved."

The author has received letters from many masons stating that their organization was responsible, some as far away as New Zealand and Australia. These others were not specific on how it was done.

The information I obtained while working in intelligence indicates that they might be capable of doing this. I cannot be too specific because I am still bound by The Official Secrets Act.

My research shows that the people who started the KKK were Freemasons and they patterned the organization after the Masonic Lodge.

I know that J. Edgar Hoover, Clyde Tolson, Gerald Ford and Earl Warren were masons. Your opinion on this possibility would be appreciated.

Enclosed are copies of May Catholics be Masons by Rev. Joseph I. Malloy, The Question of Freemasonry by J. Edward Decker Jr. and 15 pages from various books on this subject.

Sincerely,

Kenneth D. Curry
