DATE VIII/5/69

HW :

glad to hear you are only exhausted
 that being the normal state of affairs
 for all researchers I've just re-
 viewed all the Herald's news items re-
 ed's recent unpleasantness and it cer-
 tainly bears all the hallmarks of a
 hold up, frame-up and killing of the
 girl ... the medical examiner examined
 the fully clothed body and pronounced
 her dead from drowning or whatever the
 medical term for drowning is
 thank you for the idea of ordering
 more I only printed 200 and there
 are about 30 left... it needs expansion
 to be a book and contraction to be a
 magazine article ... welcome your ad-
 vice ...

do you want me to assist with Nancy
 Perrin ??? sincerely

PERSON ADDRESSED RETURN THIS COPY TO SENDER

8/7/69 Bob- Hasty response to 8/5:

Exhaustion or whatever it is, I cannot now take much time for

hasty. It must be, however, with regard to her present address.

I'm sending a large book, must complete chapter so my wife and type, and perhaps have a glimmer, and will be here this afternoon.

So we have and send, we will. I cannot take the time. The big thing in touch with me, for I have all I doubt she will. There is also the Youngblood picture. If you know that alone, that is no sweat. But the complicated and it would take much time to prepare you for trying to do anything with it.

Hurriedly,

Harold Weinberg
