

8/28/67

Dear Bob,

Now you know how tired I am, putting the salutation where the date should be!

Both of your notes arrived today, with the clipping re AP. That is actually worse than you said, for the Commission did indeed (p.19) say Oswald did all the shooting. Summary and Conclusions: 4.

The next book will come out under Parallax aegis. It should be in most stores and be much cheaper. Reprint size means no documents, and I've more than 300 pages of them for that book alone! The one after and the rest I'll do myself again and will send automatically.

I sure could use the editing. The problem is time and distance. This stuff cannot wait and I have to clean one up or I can't work on the next.

I'll be there Thursday, don't know schedule. Had been Wednesday, changed this p.m. I'm doing one of Steve Fredericks' shows for him while he is on vacation. That should be fun.

I'll write Mike Johnston or phone him when I'm there. There is a local wholesaler from whom he (and anyone else on east coast) can get my books: A&A, Wear Rd., Albrook. However, if a chain were to get a sufficient quantity, I could come closer to wholesaler price. Thanks much. These books will now have to be merchandized for people think, having bought one, they know it all. Books are not merchandized, alas, and few wholesalers sell. We make the standard 40% disc. on orders of five or more but cannot do it on consignment. Instead, the standard practise is what is called "protected", that is, the books are returnable for full credit.

Have you realized from the papers and the Andrews trial what flowed from that long night last February, or did you leave us too early?

Again, many thanks.

Sincerely,

Harold

Harold :

thank you for sending the latest effort and may I ask how the next one can be secured -- I assume by the usual pre-payment but shouldn't it be just a bit more so you can begin to break even ? I heard you on Steve Frederick's show one evening and it came thru very well -- I tend to agree that the eastern intellectual community has done very little -- not one to consider myself very intellectual the enclosed is at least a step in the direction where much more needs to be done -- at this writing I'm over my ears in my own work but perhaps by November I'll be able to work up an idea I've long had to help with some editing for you if that would be acceptable -- I consider myself most brash to suggest this but hope you realize it could be of value in the long run -- sincerely Bob

Harold -

the enclosed card is the fellow that runs
one of these bookstores - he said his
deal is 5 books at 40% of list
and he'll take them on consign-
ment. I figured you could deal
with him directly - he's interest-
ed and this is a popular store -
good area of the City - next to the Pru -
hope some good can come of it for you
