I do appreciate your intent to save my time but I can't answer the question that simply. I

CUTLER DESIGNS   like Wayne much. He is a very decent human being and   R. B. CUTLER, Architect
in many ways an excellent reporter. These being my belief and I am
38 UNION ST., MANCHESTER, MASS. 01944   confident also the truth, I could not   Tel. 526-1521
answer "no." But if I answers "yes" I   Hm 526-1554

would seem to be endorsing his work. As he
knows I also can't do that. I'll try to anti-
cipate what may be on your mind. I do
not believe that the assassins would be making
themselves
himself conspicuous at the scene of the crime
or anywhere near it or in any way that could
be connected with it. I see no purpose and
needless hazard for others who may have been
part of a conspiracy for doing this, either.
However, I have known of the report of the
Youngblood arrest for years and have no reason
to doubt Wayne on this. My recollections of
what else he went into are not clear enough
for guessing what else you may have in mind.
...I'm disappointed that Jerry Williams had no
interest in the new book. I wrote him in ad-
vance and on learning that letters I'd written
others on talk shows did not reach them recent-
ly wrote him again. I think he may have gotten
himself hung up on Frank, judging from the way
he treated each of us, with me on the phone,
when Frank's book came out and because after I
sent him a copy of Frame-Up when it came out he
had no interest. For a man like Jerry to ignore
this transcript and the only way his audience
can get it and the only book on the King assassi-
nation not in support of the official fiction
is more than a mere disappointment for me.
Hope you have a good years. Best regards,
