

5/6/71

Dear Bruce Deerson,

Thanks for your note of the 30th. Having just returned from a very tiring trip of a week and leaving again in the a.m., I'm pressed for time and must be brief. I do not intend to be curt.

POST MORTEM, two of the three parts completed, is copyrighted for the protection of my rights and so that I may do my own work my own way, without worrying about corruption and thievery and misuse by others. Under the very narrowest restrictions, we are making it available to those who have a legitimate need for it. I regret that you do not meet the requirements.

I did not "know" that Dave Lifton "is writing the book on the Kennedy case". When last I spoke to him, in 10/68, he led me to believe he had it completed. He has since been quoted by others in the same vein.

Frankly, until I see it I will not believe it. I have to clear a vision of those papier-mache trees and those secretly-dug Brown and Root tunnels in Dealey Plaza, too strong a recall of his irrefutable proof that first Dulles and the Rusak (but not both) spent the week before the assassination in secret meetings all around Texas plotting the assassination. All this he told me.

The thoroughly unprincipled and disreputable things he has done, no doubt with great sincerity and deep belief, I spare you. What I believe to be true, that he is sick, is the kindest thing I can say for him.

With regrets,

Bruce R. Deerson

Dear Mr. Weisberg,

I have just finished reading
your latest book Frame UP. As a
student of assassinations of the 1960's
I found it fascinating. I am interested
in the cost of

Post Mortem: Suppressed Kennedy autopsy
Post Mortem III - Secrets of the Kennedy autopsy
I have all your other books as an instructor
in Political Science I would very much like to
add them to my collection.

I am now teaching a class on the
1960 assassination and I am grateful
to men like you, & much love for your
great research.

I am in touch with Dave Liffman
who as you know is truly the book on
the Kennedy Case. Hope to hear from
you

Sincerely
B R Deerson
