Dearest Ones,

 PAN AM.

Ted called yesterday and told me that you are just not feeling well again. I can't tell you how sorry I am for both of you. I myself have been disabled with this neck and arm injury for the last 2½ years with just a short time last year when things were looking better for about two months when I re-injured my shoulder and the whole cycle started up again. Believe me, I know how difficult it is on all concerned, as my dear husband Ray and both our children have had to bear so much of the normal everyday activities that I was able to do myself before. So I deeply sympathize for you both. I know that this has been especially difficult for me, as well as for you Harold because I too have always been so active and I find the mental adjusting probably more difficult right now than even the physical limitations.

Harold, I have enclosed a copy of three pamphlets that I have looked the world over for that I would so much like to have on at least be able to read and make copies of. I found them on the back of Joachim Joesten's book "Oswald, Assassin or Fall Guy". I do not want you to go to any trouble for me for me over this Harold, but if you have or maybe know where I might buy or borrow these, I as you know would be eternally grateful.

I am also very grateful that in your talking with Ted about the Select Comm on Assassinations, he seems now to be coming around to what many of us were afraid of in the beginning, but it took his deep respect for you to finally believe what was the inevitable and certainly you must be able to hold your head up very proud indeed because I have never seen Ted back down from a position once he has taken it, and without question he holds you in the highest esteem.

P.S. Did you enjoy, or better yet, receive the copy I sent you of Lilliams speech before the L.A. County Board of Supervisors? By the way, she has already sent the I'm a patsy tape to the gentlemen you spoke to me about in Oklahoma. I called her and everything is just fine. Come to think of it, I should get one for myself. Well, I will close for now, arm is giving out, love to you both,

Dear Jan,

Thanks for another lovely card and the wishes that go with it.

If I do not have Millian's remarks Ted said he'd send them.

Other things are on my mind and I do not recall.

I don't have any of the pamphlets. I had the first two but as so often happens I loaned them out years ago they never came back.

With the passing of time the only probable value these things have is as collectors' items so they may be even harder to get.

Marzani and Munsell have been out of business for many years.

Unless you find someone who has them I guess your only chance is xeroxes from library copies, maybe in New York, which has a big library, if not in L.A.

Let us hope you condition improves. Mine can't. My hope now is that it hasn't worsened. I see a specialist tomorrow.

Thanks for your good wishes and my best to you,

sincerely,

Dearest Ronald

Hope you're resting comfortably—
Improving day by day
And that your full recovery
Is already under way
So that it won't be long until
Your many friends can see
You've left these days so far behind
They're just a memory!

GET WELL SOON

Always

*I love to you
Janet Kay*
