Dear Mr. Weisberg,

Thank you very much for the order form for your books. I am ordering all but one. I have sent \$62.25 in cash including insurance. I hope that you do not mind if I send cash. I am only 16 years old, so cash will have to do for now. I am very interested in the JFK assassination, and if you have any other material for sale about JFK, please send me information about them.

I have heard about your successful recovery from your operation. I am glad everything went well. You are in my prayers.

Sincerely,

Sean

Dear Sean,

Thank you very much for your good wishes!

I have no materials to sell on the assassinations other than my books. I do not sell the documents of which people make copies. I do give anyone access to the records I'd gotten under FOIA. But I've never made any selection of them for sale.

However, I do keep a small selection on my desk to be able to illuminate some points by their use. So, I enclose copies of three of these, no charge.

Please note the dates, which are significant. 89-43 is the JFK assassination file of the Dallas FBI office. The indices were searched, references noted, and the record itself was filed before Oswald was charged.

I added the underlinings and marginal marks on the SA Newson report. Translated into plain English he says that unless a picture shows Oswald with a smoking gun it is of no value to the FBI. And where he says the 8mm film doesn't even show the building, it in fact includes 57 frames of the very window the government says all the shots were fired from.

Moyers then was the channel to LBJ. This memo, probably written the day before (I have the holograph), was typed first thing Monday 11/25. I've added the vertical marks on this one also.

Katz. was then both deputy attorney general and acting attorney general.

Obviously, nothing that could reasonably be called an investigation has been possibly by the morning of the first working day after the assassination.

Best wishes,

Harold Weisberg
