Dear Jeremy,

I do not have and nevr had any copy of the Zapruder or any other film to sell. The only things I have ever sold are my own books. And you ask about theories, I have none and while I believe that for thinking there is nothing wrong with having a theory it is very wrong to present an unproven theory as fact. It deceives and misleads the people.

Whether or not there is a conspiracy is a matter of fact, not of theory.

You can't prove that there was a conspiracy with any theory and once that there was a conspiracy is proven, that need not, and in the JFK does not, identify the conspirators. I urge you very strongly to be your own evil's advocate and to try to refute these theories as you read them. With a number I think you'll be able to.

Ask yourself is this reasonable and if you are satisfied that it is or could be, then ask is it possible.

The crime itself ~~is~~ was never investigated officially. There thus are no real leads for private persons to follow.

My comment, and it is the thrust of my work, is that the government betrayed the trust of the people, failed to meet its minimum responsibilities, and that the lack of trust, more than justified, lingers.

So your teacher will not wonder if you use what I say about the crime not being officially investigated, I enclose a copy of a memo that states this intent. It is dated the first working day after the assassination and it was written the day before, when Katzenbach had no typist. I have the holograph.

Best wishes

Harold Weisberg

Dear Mr. Weisberg:

My name is Jeremy Doherty. I am a sophomore at Olathe North High School here in Olathe. I am in the gifted program at this school, and I have the opportunity to pick a topic for independent study. This year, I have chosen as my topic the death of our late President, John Fitzgerald Kennedy.

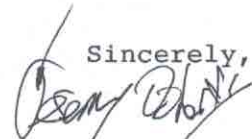

Recently, I was reading High Treason 2 by Harrison Edward Livingstone, in which Livingstone mentions that a copy of the film of the shooting by Abraham Zapruder could be ordered from the above address. A copy of the film would be useful as a visual aid when I present my completed project.

However, Livingstone left some details out when he mentioned your address. For instance, he did not say whether you charged a fee or not, and if so, how much. Also, he did not specify if your films were VHS, Laserdisc, 8 mm, etc. I ask you to please reply with answers to these questions with any additional details I may be forgetting.

While I have your attention, I have another request. As part of my project, I plan to include a section containing comments, opinions, and theories on what happened that awful day in Dallas from various researchers. I hope you are interested and will comply.

Thank you for your time.

Sincerely,

Jeremy Doherty
