

NEW ADDRESS: Rt. 7, Frederick, Md. 21701::301/473-8188

5/26/68

Dear Allen,

When you read the enclosed its going to be like old home week.

It has taken a little time, but I think what I have here is the FBI reports on the guy who phoned in on your show.

After you read them, maybe you'd like to listen to the tape again.

If you do, you'll wonder where they get all the seeing-eye dogs to lead those poor FBI agents across the street.

There are many possibly-significant things in the man's comment to you that are in no way indicated in the reports.

Do you remember what it was that was so wild you took it off the air?

If there is anything else on this you can let me have, please do and I'll try and follow it down.

Should you want to use these, go ahead.

Excuse the haste. I've been working on New Orleans again. Each time I'm away the work stacks up that much more. I hate to leave that place once I'm there, the leads are just plentiful. By now I know enough people there to work from one to the other, and I'm getting lots of stuff. And each time I leave to go there, I hate that, too, for I know what awaits on my return.

Sincerely,

Harold Weisberg  
P.S. If you recall how much this man wanted to say what he knew, can you imagine what the FBI could have learned if it had really interrogated the man. It is my recollection from your tape that he said the FBI man was an old friend of his, or that he'd known an FBI man for a long time. Increasingly, this kind of involvement in the assassination is indicated. There is Minuteman involvement with the Cuban groups. One was arrested at a N.O. camp. Guy Bonister's former friends keep pointing me that way, too....and if you ever have anything on the National States Rights Party, please let me have it for the same reason. There is now no question in my mind that they planned an assassination. I have evidences on both coasts.
