

MEMORANDUM ON POLICE RADIO LOGS, COMPARISON OF EXHIBITS 705 with
SAWYER EXHIBITS A AND B. SAWYER EXHIBITS A AND B ARE, IN FACT, ONLY
THE SLIGHTEST SELECTIONS FROM THE LOGS but may include Channel 1/
Sawyer Exhibit A appears to be Channel 2, the first entry a
call from 30 estimating the size of the crowd has a 5-minute time
difference.

Dispatch of 21 and 32 in Sawyer log listed at 11 a.m. but in
705 at before 10:45.

Next item on Sawyer log, 531 to 30, requesting information on
arrival of plane 11:20 a.m., on Sawyer log, prior to 11:02 in Exhibit
705.

Sawyer A has 5 telling 531 between 11:34 and 11:35 that 1 is
on the ground. This does not appear in 705.

Sawyer item between 11:35 and 11:37, 540 telling 531 "He is
crossing down town Dallas now." Not in 705.

Where items are found in both logs, Sawyer Exhibit A has contents
not revealed in 705.

Where on Exhibit 705 a speaker is listed as "Unknown", he is
clearly indicated as 5 in Sawyer Exhibit A.

Several entries attributed to Chief Curry in Exhibit 705 are
attributed to 15-2 in Sawyer A.

In addition to time discrepancies, some broadcasts by Chief Curry
in Sawyer Exhibit A are not represented in Exhibit 705.

Item from 2 to 1 in Sawyer A listed as 3 to 1 in 705 (time after
12:16).

There are many typographical errors.

Broadcast by Decker in 705 attributed to Curry in Sawyer A.

passerby reporting the shots coming from the Depository Building.

Broadcast by 260 in Sawyer A at 12:36 reporting he has witness

2 - Logs

who saw shots come from fifth floor is in 705, but "we are sealing off the building." is not and, of course, it didn't happen.

Item at 12:37 in Sawyer A instructing that the building be covered is attributed to 142 and in Exhibit 705 is attributed to 22.

15's instruction in Sawyer A after 12:43 is to extend out from the Depository 2 or 3 blocks but in Exhibit 705 the added area is not indicated.

In broadcast by Sawyer telling the dispatcher "current witness can't remember that" with regard to the dispatcher's request for "the clothing description?" does not appear in Exhibit 705 and is very important as it relates to Brennan. There is no proof that "current witness" is Brennan, but obviously it should be if Brennan is the source of the broadcast description.

The exchange between 4 and 531 in Sawyer A, with Fisher asking "Who is in charge down there at that area?" and the dispatcher replying "Eighteens/^{enroute, he will be}in charge." This does not appear in Exhibit 705.

In the Sawyer Exhibit A, following the dispatcher's broadcast to Tippit to be at large, appears this notation, "This is the last radio transmission between Officer Tippit and the dispatcher." This is not true. The dispatcher subsequently called Tippit without getting a response. It was about 1 o'clock.

Sawyer Exhibit A shows that at 1:18, 531 called 78 three times.
