NEVER BEFORE SEEN EVIDENCE
FROM THE FILES OF THE DALLAS P. D.

"JFK First Day Evidence"
by

Gary Savage

R. W. (Rusty) Livingston takes you inside the Dallas Police Crime Lab

I knew what I was looking at had to be important. I just didn't know how important. All that I had known was that my uncle Rusty had worked with the Dallas Police during the time of the Kennedy assassination, and I didn't even know in which department.

As he brought his old briefcase out from the closet and sat it on the table, I wondered if it held any secrets. After nine months of consuming research and testimony from an eyewitness to history, I found out that Rusty's one inch thick file was the purest evidence to date. It came through no one, not the censure of the FBI, not the Warren Commission, but directly from the Dallas Police Crime Lab. The full story is now told of the behind the scenes actions of the Dallas Police ID Bureau Detectives!

JFK FIRST DAY EVIDENCE is a straightforward presentation of evidence from a man who not only witnessed the arraignment of Lee Harvey Oswald for the murder of President John F. Kennedy right outside his office door, but KEPT A COPY OF MUCH OF THE EVIDENCE COLLECTED BY THE DALLAS POLICE CRIME LAB. Never before in ANY book (not even the Warren Commission) has anyone seen with such clarity the sixth floor crime scene evidence or understood what really went on in Lieutenant Day's fourth floor Crime Lab office.

Rusty worked the night shift in the Dallas Crime Lab and arrived there at 9:30 p.m. on the night of the assassination. He worked behind the scenes in processing the photographs and physical evidence found pointing to Oswald throughout the night and on the Saturday following the shooting. He observed the palm print taken off the rifle by Lieutenant Day BEFORE IT WAS RELEASED TO FBI. He has a map drawn on November 22nd, 1963, of the sixth floor crime scene which organizes the photographs taken by Lt. Day and R. L. Studabaker. He has the UNCROPPED PHOTOGRAPH OF THE MINOX SPY CAMERA OWNED BY OSWALD which Gus Rose claimed was found and the FBI said was not!

Much speculation can be laid to rest with the abundance of FIRST GENERATION PHOTOGRAPHS found in this new book. Rusty, now retired, gives a colorful background on the circumstances surrounding the Crime Lab investigation. Read for yourself Warren Commission Exhibit 3131, and see the name of one of the few remaining men who can tell today the truth in the Dallas Police investigation of the assassination of President John F. Kennedy.

If you would like to be notified about how to obtain a quality copy of this soon to be released hard-bound book, please send your name and address to: The Shoppe Press, P. O. Box 2741, Monroe, Louisiana 71207-2741.

no He saw the print when Day showed it to him
