Deer Mery.

Before breakfast I rushed out a resionse to your previous letter, on the may to deshington - left it at the jost Office and picked up my mail, and lo! there was yours of that afternoon. (Thanks for the stemps)

No, meaning iil, did get the book zeroxed. One is too tired to colete it tonight but will tomorrow, and I hope to get a copy into the mail to Teul Seturday. I'll write him and tell him to make a copy for you if you want it.

On the Curry book: I have a latter today from did Bernabel, who is in Canada (and a classics scholar who is a number I smateur bailistics expert) saking for a copy, so instead of sending it to Carry or to a brilliant la-year-old in -biladelphia, I'll send it to Dick, with our compliments. It will be be less of a problem to supply these in the U.S.

I do look forward to the other two books, repectally the one on the DrD, and most especially if it has lockments. Incidently, I will have a lengthy arounding in COUN and that, the, will be available. Thether or not a should feel in about 1 do approximate these kindeness were much.

Bud will be here day after temerrow, but not long enough, I fear, for finel determinations of what we'll seek by suit.

On the oursy originals: fine one thanks. I'd forgotten I'd asked you.

There had no response to my other request, which makes us think percent they are being sought for se or that they involve high policy decisions. My interest is not for publication but for possible use in court. One of the things I make confident had will egree to sue for is the spectrofre his soolyels.

Then I catch up on the acrumulated correspondence I'll be typing a list of New Orleans names (present and former). I'll sand it to you to see if you know enything about them. Not emergency. One is within reach of here and I went to seek him out as soon as I can, but it would be better to know all there is to know first. If I am less tired in the s.m. than I am now, a may enclose it. I'll ask Paul also. By the way, have you their indexes? I sent them those I med and they got others I didn't, so they have what the irchives (not to be depended upon) says is all of them. I gove them a list of what we had between us and saked for all the others and got must is so represented and sent out there.

Spoke to hoo yesterday. He says Jim and enother seek of traction, after which the need for surgery can be determined.

agein, taenks,

Sincerely,

Dear Harold:

I mailed you a letter this morning but this afternoon I went to Doubleday book store and bought some more Curry books and I just ran over to the post office and mailed you another copy. (I just put a little scotch tape on the "pleated envelope" you commented on, so I think you can use it better)

The main thing I wanted to tell you is that apparently none of the other books are out yet. Judy Bonner's book on the Dallas police is supposed to be out this month (December) according to an article in the paper the other day and I called the Genesis press the other day and they say the book on Ruby's "girls" will be out in a few days. I will send you copies as soon as they are out. Please do not feel "indebted" in any way. "Giving" you a few books is certainly not going to begin to repay you for all you have done for all of us who are interested in the assassination.

Sincerely,

Mary Ferrell

Please gut the the two
me a little of the two
