Dear Mary,

The Dallas Morning News of 1/15/64 carried a story headlined

"Carr Tells Murky of White House Conference That Set Up Inquiry".

Once you get everything about the Texas Court of Inquiry interests as in a booklet with some writing you'll be able to read when you are here in August.

This is one aspect, if you have the clipping. Also, have you copies of any of the correspondence with the WC? Sylvia does not have the letters she used in her Minority of One article and doesn't remember where she got the notes from which she wrote it.

The writing is AGENT OSWALD. The part relating to the Texas inquiry is roughed and retyped. All of it, I hope, will be edited before final typing. So, there is no rush on this part, except that the faster I can get and read it the sooner my understanding might be expanded.

Do you recall where I saw that Stacey had been in OSS? There was also a Dallas lawyer someone told me was a big wheel in this investigation. He said nothing, I can't remember his name, and I can't find my notes.

Of course, anything that relates to LHO as anyone's possible agent would be very helpful. I hope that after this coming week I can get back to work on the writing.

Pena said that Rusty was a bridge-playing partner of Walker's pal Surray. Do you know anything about this or Rusty?

Lil seems to be making good progress. She can now walk briefly with one crutch. The leg is still swollen badly.

Hope you and Buck had a good visit.

Best,
