Dear Howard,

For the first time ever your third-class mailing was opened for inspection. I don't know why or where but the postage-due stamp was added locally and tomorrow I'll phone to ask wherein in violated 3rd class but I'm sure in that you had a letter to me in it, which made the whole package first class. What I will also want to know is whether the notes you added to enchosures, helpful, are prohibited. I've not had time to read them but will when I can.

I have an extra Oui in today's mail if you or JDW want it.

Tye names Floyd Murray and Jacob Davidson do not come to mind. I know that of Ed Jeffords but forget why. O the rest I can be helpful and will. But to answer your question, if you would tell him that I am today physically unable to engages in unnecessary correspondence and why I would like to go over that stuff because some of it seems faked and because it may not originate with CTIA. It could have.

Where I can identify it the origin is Garrison. Fred Lee Crisman (no "H", maybe double S) is a far-northwest far-righter that probably Bill Turner first got Garrison chasing. He made a fool of Garrison by not opposing appearing before the grand jury and doing it. Garrison's explanation of me is that "they sent their top man to feel me out." Wherever it started, Garrison also thought one of the pictures looked like Crisman, his only real handle except that Boeing is where Crisman was.Really. I think they finally cast "risman in some kind of boss role, maybe paymaster.

Do tell Murry it is garbage if you think he is serious and do encourage him to send me copies without expectation of response. Plus whatever he knows about "Tom" and Davidson.

Some of those far-right types always worked for the FBI and it did penetrate just about all their organizations. So, this could be some such operation, not necessarily aimed an any of the informed people but merely to spread disinformation and destroy all credibility.

Specter refused my certified letter asking him to set up a debate. Three times! Think I'll senx copies of the letter and envelope to all the Phila. papers. I mean he is always home or his wife and family or even maid are cued in.

Nothing new not reflected im enclosures.

Best,
