Dear Mrs. Davis,

Because of limitations imposed by my health things tend to accumulate in stacks.

I've just gotten to the bottom of the last stack on my desk and find it holds your letter of 12/2/86 and my reply of two days later.

It also includes a copy of your outline for your index of Warren Commission witnesses.

Your letter indicates that you may have stopped here about a month later but if you did I have no recollection of it.

Unless I've mislaid or misfiled it, I have nothing further from you.

If you ever completed that project, I'd appreciate a copy.

Thank you and best wishes,

Harold Weisberg
