

Dr. Aleksei Davison- to check:
Atlanta papers- 4/26/58, death father (Dr. Hal)
12/12-16/62 Penkovsky case broke in Soviet press
5/7/63 Moscow trial starts
beginning 11/22/63, check Atlanta papers to see
if there is reference to his having known
Oswald

Dr. Davison was a US Air Attache in Moscow. He gave
his mother's address to Oswald as Marina was faking
a physical preparatory to leaving for the U.S. Later
Davison was accused of being one of the "drops"
Penkovsky used in getting info to the US (CIA?)
That he would give his mother's address to the
returning defector who had, to Embassy knowledge,
threatened to give US military secrets to USSR
seems rather strange, out of keeping, not what one
would expect of embassy employee, esp. one in
intelligence
