From your attractive card you and Cris must have had a fine trip.

You lucky people!

Hope we get an account of it soon.

I don't know if you have friends connected with England's Channel 4 but I've just learned that they are being ripped off by some unscrupulous promoters on what has been misrepresented to them as a definite "new evidence" treatment of the JFK assassination for the 25th anniversary. Rather is it new fabrication, by promoters whose successes have been in advertising and rock bands. I have this part solid and documented.

As of last month Channel 4 had committed 200,000 L to the flimflam. And the worst part may not be the money wasted. The reaction will be strong and irrefutable and if they have any reputation it will not survive.

The promoters are also promoting more money in the US.

Nova, where I know nobody, which I say in the event you do, is hooked on the Lifton fabrication of musical chairs with the JFK corpse and casket. Untenable but Lifton sold it before in a book. Nova also will be clobbered.

What surprises me is that nobody is checking anything out.

Shows what a little greed can do. They lust for profits and ratings.

Now if I were more able and had an agent I might try to get connected with BBC to have an expose in the can to be aired just before the assassination, when all the rest would be fixed. and hooked. That would be a legitimate sensation.

When you are up I'll show you the documentation. If it interests you.

My interest is to deter further confusion and disinformation and the inevitable disillusionment and misleading of the young in particular.

Our best,

Hardy
