Dear Ed,

It is a long way from Chicago to Arizona. But then it's been a long time! hope the years were good to you.

As your apparent faith in William Cooper most assuredly isn't.

In your letter you say he says "Greer fired the fatal bullet at Frames 312-313-314." In the biblio, under "Other," then Cooper and the videotape, you say, "includes videoclips showing Greer administering the coup d'grace to President Kennedy..." (sic).

There are very few things about which we can speak with absolute finality in the JFK matter but one of the very few is that as with so much of what I remember of his ravings, this is absolutely impossible. As the Zapruder film alone makes certain. Moreover, there are no original "videoclips." So whatever he made up is made up and false. Absolutely. By which I mean no question at all.

You ask if I know where Greer is. If Cooper did anything at all other than imagine things and then spread them around as fact he'd have known that Greer died many, many years ago, from the ulcer that led to his retirement.

Please believe me, what Cooper says is absolutely false and physically impossible.

Why in the world didn't you check with me first, before getting yourself associated with such irresponsibility?

Now I don't know what is meant by those "videoclips" unless he also contrived some kind of drawing but those frames are published in the second exhibit volume of the Warren Commission records that perhaps some library near you has. You can see that he was not shooting JFK.

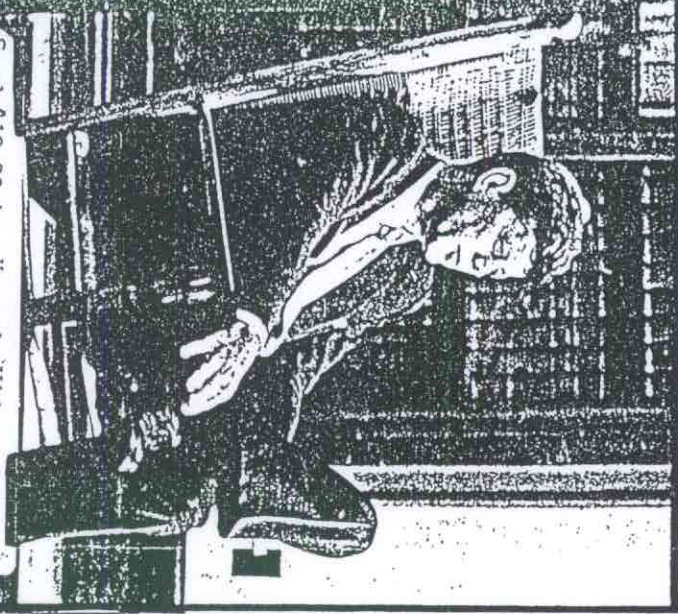

I have no interest in the rest of it but I'd like to see what he represents as proof that all the thousands who examined the Zapruder film and all the millions who saw it over and over again on TV did not see!

I'll not be able to go into this any more because in addition to the other infirmities I carried into the last part of my 76th year I've just recently had a triple bypass and am limited.

Best wishes,

Harold Weisberg

Oswald didn't do it

But I will show you who did!

Finally, after more than 25 years, filmed footage has surfaced to reveal the true gunmen who shot the President.

Now you will see for yourself on video, the actual assassination.

This is footage taken at the instant of the assassination. From the original Abraham Zapruder film and through the capabilities of slow-motion, you will see the actual shooting of President Kennedy take place. (U.S. Agent using a nickel plated .45 cal.)

When you see this footage you will know these things:

1. There was a conspiracy.
2. There was a crossfire and one of the shots fired was from less than 10 feet.
3. You will see who killed the President.
4. U.S. Government agencies were involved.
5. President Kennedy was shot from the front.
6. Oswald did not do it.
7. The Warren Commission lied.
8. The Russians did not do it.

Death and Misadventure

During the three-year period that followed the assassination and the murders of Tippit and Conrad in a single Dallas weekend, some 17 persons were involved directly or peripherally in the original events have also died, and one witness was the victim of attempted murder but survived a bullet in the head.

Send now and see for yourself the truth about who really shot the President. You owe it to yourself to finally resolve this question--once and for all!

For \$10.00 I will send a duplicate of a VHS video that I received from William Cooper of Huntington Beach, Calif. Made on quality equipment with enhancement and detail added for a perfect duplication recorded at SP speed. The original is not perfect but it is more than satisfactory in letting you see the truth of what happened in Dealey Plaza in Dallas on November 22, 1963.
