Dear Mr. Decker,
The trip that begon in the Eey ares lasted snother month. I've been back only a few days ond ank muct raturn to "ew orleans for further investigotiona I could not complete beforn havine to return home. I'll bo there perhops 3 couplo of weaks, or until my limited funds run out. They, buving no other choice, I plen to be hone for seversl menths workine on other books elready comenced and conilning other investigetions elready comenced.

I hove not dered speak to the printer who has bean so very kind to me to get exact figures on the cost of publi hing those two books now ready. 1 hove obteling nev and some of the vert moet shocking ovidence for the one on the sutoney and what relotes, ROSm MOMmEM, and I will be sading thet. Cocip DigTAT de $1 s$ 7 71 th sil the essassingtions and brin to 11 ght tias sursesed evidence of the netive fescist involvment, with documents. The campaign agningt froto GNiHIC HIL.... wss the atrongest of cll. holesslers who ordered then refused to fil bookators orders, thinse like thet. Hence my inmbility to pay the printer nd tay reluctance to esk for new estimetes. The -slifornia nolesaler who eid well on the corlies books egked fo for ssles meteriels which + haprinted for aim ond a pro ised epacisi nailing. "e never uaed them, wating 2300 for we, ond $n \in$ ver put the books nut. Le then roturned them under conditions guernateeing they would be lorgely unsslesble. The trucker, in a year, has not yet dallvered them to me: I shell heve to eus, yet, I heve no funde for a lawyer. This one order sccounts for i $\langle 2,800$ loss, enalit 1 is not resily uniaue.

1 boliev it is essentisl to include in these volumes thet suppressed evidence I heve begn ble to dig out. What I have for pers MopTrM is booklongth in itself. + guersntee that even alter knoring what is now public. this \%111 shock you, it is that awful. This means a more costly printing bill, but I connot add to the price of the bonk, elready necessarily too bigh. I guess it Tr11 cost sbout 25,000 for the printing. The same is my guess on COUP D'ETAT. $I_{n}$ it $L$ h ve not only whet the EEI knorinely sup rasset ebout the designs end plans of the netive fascists (also against King), but their exact words, in tiking full credit for the JYX marder (which they carefully and eccurstely blueprinted in gdvance in a tape recoring 1 have and will include), "we must now concentrate on the Jews". I also have the proof this is what they did, chepter and verse. The sppendic of supnressed evidence in PosT whrTwM misht well run more then 300 peges ond I regerd it as presently and historicsily indispensible.

If you cen $h \in 1 p$, as I am zure you know, I will appreciste it. Unless Lif ycu, the books will remein unpublished, for my debt ie now sproaching 40,000 , atic I em and hov bean pithout income. There ise men in onklend who has baon obl to read these manuscriptg, if only in grast hasta, hen he wes east working in the Nationsl Archives. is Hal Verb, H10, 466 24th., $451-2351$. He is one of the beat men wo cking in the field, fully knowledgeable, and con give you
his appraisal of them. He has also seen some of the documentation. It particularly disturbs me that Jews have been reluctant to learn from the hietory of the recent pest sad help bring to light what it interests them more then other minorities to hevo known, s ni that in ublifornis, where tie re is so ruch and so strone a native fiscist movement, there is so little being done to bring what io know alout it to light.

I have not yet becn acle to type my notes of the pest month. In the short while I've been home I've hed certein emergencies to cope $\begin{aligned} & \text { It th, hence my }\end{aligned}$ delay in reaponding to your welcome letter end potential offer. I simply must nom leave again for New Urleans, for there are things to be lione there that no one elae cen do. I think you may understend thet there gre some doors closed to the fuzz that can be opened by a writer. "yy work there has been very
successful. "hiz trip I elso got to Dgilss, where again I was able to open doors thet until now remained flimly locked. This exhausta me physically and financielly, but then I hever completes the book AGMNT ostali you will see the importance of this wort.

If addition to my ppology for the delay in answering I offer one for the typing. i sm so very far behind and there is now so much I absolutely must do before going to thew Urleans, I will not be sble to proofread this. I do hope you can get the sense through ay abomindable typing.

I am grateful for your offer and hops you can see your wey clear to do somethine, slone or nerhaps with others you may knowe
