his appraisal of them. He has also seen some of the documentation. It particularly disturbs me that Jews have been reluctant to learn from the history of the recent past and help bring to light what it interests them more than other minorities to have known, and that in California, where there is so much and so strong a native fascist movement, there is so little being done to bring what is known about it to light.

I have not yet been able to type my notes of the past month. In the short while I've been home I've had certain emergencies to cope with, hence my delay in responding to your welcome letter and potential offer. I simply must now leave again for New Orleans, for there are things to be done there that no one else can do. I think you may understand that there are some doors closed to the fuzzi that can be opened by a writer. My work there has been very successful. This trip I also got to Dallas, where again I was able to open doors that until now remained firmly locked. This exhausts me physically and financially, but when I have completed the book AGAINST THE WALL you will see the importance of this sort.

In addition to my apology for the delay in answering I offer one for the typing. I am so very far behind and there is now so much I absolutely must do before going to New Orleans, I will not be able to proofread this. I do hope you can get the sense through my abominable typing.

I am grateful for your offer and hope you can see your way clear to do something, alone or perhaps with others you may know.

Sincerely,

Harold Eisberg
