Informant advised that DON NEELY who has been AWOL from the Army since the summer of 1968 is back in town, is frequenting the Beale Street area, has grown a beard, and that a Beale Street businessman recently made the statement that DON NEELY is viciously mad at the world and is extremely bitter.

Informant advised he could not understand why the Army allowed someone like NEELY to be AWOL for such a long period of time without making any effort to return him to the service.
