We must have you either

What are your symptoms?
Check out someone - Dad's

My Dearest Hal:

Of course I am not angry with you! This is about the fourth letter or card I have addressed to the exact address above (the same one you have had for several years) and they are all returned to sender. When I received your last letter informing me you were going to run for office, I immediately wrote to ask if there was anything an old 70-year-old woman could do for you. The letter was returned. I sent you a Christmas card the next Christmas and it was returned. My daughter sent you an invitation, from New York, to our 50th Wedding Anniversary celebration in Memphis, Tennessee, in June. My children took almost an entire floor of the Peabody Hotel and had a corner suite set up with musicians on a balcony, a caterer and a bartender. We had about 60 people there from all over the world. We only invited about eight of my friends from the assassination inquiry. Jim Leavelle and his wife were there. He was the officer handcuffed to Oswald when Lee was killed. We invited Bob Dorff from Beverly Hills, Robert Chapman from Memphis. You were invited, Tony Summers was invited. Just a few like that. No, I did not invite Bud or any of those on the AARC.

As to being "scared off" -- it is pretty hard to frighten me at my age. Of course, when I die of extremely old age, Penn will call me "a strange death" but that doesn't worry me.

No, Hal, John Henry Faulk was fighting cancer for the past ten years of his life. He had been a very heavy smoker during most of his life. He had lung cancer but fought it bravely and did keep it controlled for a number of years. Friends of mine had dinner with him several months before he died and he had kept his sense of humor and had his imminent death in perspective. He talked about it to our friends.

I greatly fear that you have someone at your end who is "handling" your mail. We have had the same postman for about 15 years and he gets mail to us that is sent to completely erroneous addresses. I don't worry about my end. . .

Please let me hear from you again soon, if for no other reason than to let me know you received this short letter.

Love,

Mary Ferrell

Mary is the country's No. 1 assassination expert. I've known her for 20 years. We met in Washington, D.C. when we

both became trusts of a nation-wide group of lawyers and writers investigating the JFK assassination.

She was for years the secretary to the governor of Texas.

Please make many copies of the attached "about" on alcohol, dope, etc. and spread them around all over the Twin Cities area. Post them on your public bulletin boards. Hand out copies on Sunday to your Congressman (one to each person).

The U.S. is in very deep trouble right now, and it's going to be up to us to straighten out the mess Reagan and Bush have inflicted upon our fair country.

Call me at (612) 455-1227 if you need more copies, or better yet, write to me & then follow up with a telephone ^{call} (I'm often away from home, and somebody has been "lifting" some of my incoming mail!) - Hal

Talk to me (free) if you need help. I'm often away. (612) 455-1227 (but I want give treatment.)

Everyone in the U.S. seems to have become deeply depressed, almost overnight! This is not your individual fault! Don't keep this to yourself - tell others, and you'll be surprised to find that they too are depressed, but they've been too ashamed to tell you! Let's start sharing our grief right now.

DO NOT DRINK TO TREAT THIS!
Get an Rx from your M.D. or psychiatrist for anti-depressant medicine, but do not self-treat yourself with alcohol or cocaine or what ever. Believe it or not, the "Establishment" does want you to take to alcohol, because you then "won't cause any trouble." Reject this covert message and start raising hell about the real cause of our depression: Bush's busting the economy and his plan to attack Iraq ^{Monday} 10/15/90

Talk to me if you need help. etc

Harold -

What would you think of a ~~very~~ national conference here in the Twin Cities? Would you help me set it up? Speak? Run a series of seminars?

Another suggestion I've gotten is to set up a new national committee to be called (my idea for the name): "The Non-CIA CIA." Would you join us? (Why didn't Bud have you on "his" committee? Probably ~~not~~, because he knew you were (& still are) the most effective U.S.G. critic going!

Best wishes - and get well soon!
