Reur 12/30: expect more footdragging from Bennett, perhaps even a rigged payment of the \$10,000. If on the inadequate and incomplete stuff in Berkeley's mindlessness is is enough ~~to~~ to warn Bennett. If you have not heard in a reasonable time please do keep after him with dated records of it.

I have not bought or read the Syble Leaking. My only interest would be archival, for an addition to an ever increasing gallery of rogues in ripoffs. However, ~~for~~ Bringuier to resent being called by another name would be for stinkweed objecting to being called a rose.

Have a good year, and ~~thank~~ thanks,
