Dear Harold:

Gotcha - thanks for yours of the 17th, clarifying what you want of me re Bennett. Will do. I've already contacted him for a copy of the transcript of his pse sitting with McDonald per the mention in People and the Pursuit of. As soon as I get it, -I'll bug him about the reward conditions and will forward the reply to you.

How's the book doing; in from the printer yet?

This and an airmailed copy of PW in today's mail. It in return for this, thanks. Only don't tell anyone because I do not know when the ^{REPLY} truck gets here with the rest of them. I won't take time to read Bennet's pse with McDonald now but I'd appreciate a xerox for the future and for record...The disinformation operations with the House committee and by it continue apace, witness today's Anderson column. Currently the worst are from the left but they come from both sides. Appreciate anything you see, even if it may not seem significant. The wires were actually conned by today's Anderson nothingness almost all of which was reported earlier, whether or not - and it is not - true. Thanks and hope you are having a good holiday.
