Arlington, Virginia

Dear Col. Castorr:

Perhaps you are not aware of the important position you seem to play, by implication, in Mr. Harold Weisberg's recently published book, *WHITEWASH II*. If you are not, let me briefly explain. Mr. Weisberg has linked you with certain events which took place in Dallas, Texas. In his book, Weisberg questions whether you are the Colonel implicated in a gun running scheme, exposed in testimony before the Warren Commission by Mrs. Nancy Rich, a one-time employee of Jack Ruby's. According to her Mr. Jack Ruby was involved in this antiCastro activity. Indeed she seems to indicate that he was the money behind it.

Has the mention of your name, address and phone number in Mr. Weisberg's book caused you any inconvenience? Have you spoken with Mr. Weisberg (He indicates on page 70 of his book that he has made attempts to phone you.) or government investigators concerning this and the innuendo that you were somehow, if only by association, involved with the assassination of President Kennedy?

I'm sure the readers of my weekly paper *SPECTRUM* and other papers for which I write would be interested in your reactions to Mr. Weisberg's suggestions, as well as your own views on the matter.

Sincerely yours,

*Thomas De Baggio*

Dear Mr. De Baggie :

This will acknowledge your letter of Aug. 31  
1967.

Discussed the matter of your content written,  
by phone this date, with Mr. Weisberg and it was mutually agreed  
that any information pertaining to this subject be discussed with  
him.

He did inform me that he did have some word  
from you but did not acknowledge anything directly where I was  
personally concerned simply because he saw no point to do so.  
Subsequently, your letter to me was received and for this reason  
he will be glad to enlighten you for an understanding of the  
facts.

Suggest therefore, you do contact Mr. Weisberg  
once again relative to your inquiry.

Sincerely yours,

Col. L. Robert Casterr (Ret)
