Dear Mr. Weisberg:

Thanks for your answer of the 29th.

I would wish you would reconsider at least writing short - very short- tibbits for D/D on anything you feel convenient on this subject. Please consider.

We have several bits and pieces of missing evidence on the Assasination coming up...and I feel you would be interested as to how this may have a bearing on your case.

If you are not able to contribute even a small amount of comment in exchange for a subscription, I feel it in your best interest to at least subscribe as to get what ever information we can offer.

We believe we have a common goal. Would be glad to mention your works if possible.

Sincerely,
Steve Erdmann

"THE INDIVIDUAL"

"Disagreeing with anyone who appears to be wrong...Digging up old facts and evidences."

YOU feel that 'shadowing' in the back of your mind ---strange ideas and haunting incidents that flit through your everyday life like a fogged image - a swisp-like apparition that you can see now and then, but when you can't it possesses you never-the-less. No, your not going crazy - nor are you feeling anything unique. It is the Forces of Suspicion at work at your individual freedom and personal happiness. Like the 'fogged' image above, man receives inspiration from many sources - some good, some bad.

THERE was something very special and extraordinary about the creation of the U.S. Constitution and Declaration of Independence. The people that wrote it and backed it went through a hell of a lot trouble. AND THEY WERE INSPIRED! For nowhere else is anything quite like it. It is not the nature of the world to activate 'freedom of individual' action. The world accolades strict 'collectivism' -then totalitarianism and tyrannical rule. Just look at how many dictatorial forces are in the world today. Extraordinary forces adapt the world situation to a more humane system of individual and private freedom. What's so new about that, you ask?

NOTHING, except that anti-freedom forces are growing by leaps and bounds. Take President Kennedy's assassination; the bizzare nature of the suppression and censorship involved and the 1984 type of Gestapo methods involved (RUSH TO JUDGMENT, Mark Lane., INQUEST, Jay Epstein, WHITEWASH, Weisberg, etc.). When Jim Garrison spoke on the CBS television network on July 14, and said that for the sake of a few warped minds, all American Freedom could be lost, he wasn't just chewing tobacco to make his mouth move and past the time of day.

WHEN you are told that such fanastic things as U.F.O.s (flying saucers) don't exist, and that you'd be nuts to believe they do, brother, don't run like a whipped dog with your tail between your legs, because you are being told another lie. It is a momentary sort of lie. Because this magazine has been investigating this prospect for years....and there is TONS of real but fantastic evidence for UFOs. You can believe they are ghosts, space-craft, secret -government invetions---but baby, they are real! And you probably didn't stop to think how much THAT fact has to do with your private and personal freedom either, did you!?

AND when you are told that our country is based on a Christian-Judaism heritage, did the same people explain that this country was based on freedom FROM RELIGION as well as the tolerance towards it! This country was created so that it WON'T eventually become a totalitarian kingdom of an establishment - be it either by Pope, Priest or 'saving servants'. More barbarism has been done in the name of religion and Christianity than can be imagined. As for the beliefs themselves, did you know that the original Greek translation of the New Testament doesn't teach "eternal hell-fire"; doesn't teach that Satan became evil under his own power; doesn't teach that there will be some people cast into eternal hell-fire. It does teach that all will be saved. ALL THIS HAS A SYNCHRONISTIC CONNECTION WITH PRIVATE FREEDOM! Write: Disinter/Dissenter magazine, bi-monthly, 524 a Holly Hills., St. Louis, Missouri, 63111 \$3.00 per year for latest facts, on astounding facts and freedom. Don't wait!
