Dear Mr. Weisburg:

Enclosed is our current issue of D/D, which carries your article - advertisement.

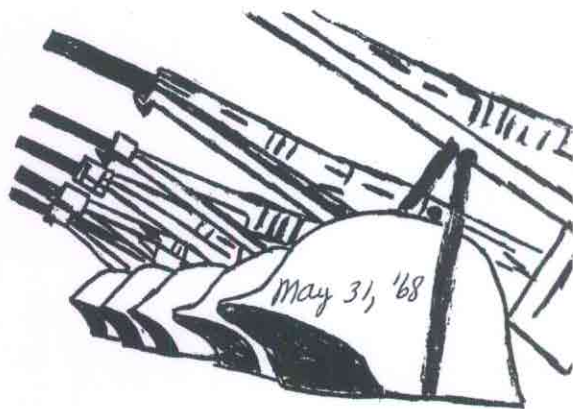

Our doing this favor for you, I hope you will consider contributing bits and pieces for our magazine.

Also note the article - first in a series on Kennedy - by Mr. X on his personal contact with David Ferrie and J. Martin.

With these things in mind, the least you might do is to "subscribe" to a magazine (D/D) which shares many common interests.

Thank you.

Sincerely,
Steve Edmann
Editor, D/D.

"THE INDIVIDUAL"

"Disagreeing with anyone who appears to be wrong... Digging up old facts and evidences."

OUR ears can play weird tricks with sounds, for instance in a ship yard such as the Bremerton Navel Yard in Washington, there are huge shops, machine, forging, weld-ing, electrical, sheet metal and the woodworking shops - all of them are noisy. Then there are welders, blowers, cranes, railroads, trucks, cars and diesel engines running all around the place. Take it all at one time and you have one hell of a racket going on. Well, if one lets all that din come in so that one is consciously aware of it, anyone who wants to attract ones attention would have to scream right in your ear. However, one can blank out all that sound except those sounds he wants to hear and then one can hear another person speak in a normal tone of voice from twenty feet away.

OR if one wishes he can turn all the cacophony into a beautiful symphony, which will vary from hour to hour and from day to day.

BOOK REVIEW

Were We Controlled? - Lincoln Lawrence

(University Books, New Hyde Park, New York)

UNDER the pseudonym of Lincoln Lawrence, a noted newsmen and T.V. commentator investigates the intriguing, dark depths of the underlying plot in the mentioned book: The Rumor. Only when all the facts; all the theory; all the reasons are brought together, it is no longer just a rumor - but perhaps the most probable explanation as to what is behind the bizarre happenings of the assasination of President Kennedy.

LAWRENCE sees evidence that two, possibly three, of the most ultra-modern methods of 'Mind Control' were used in the conspiracy to kill President Kennedy. R.H.I.C. - Radio Hypnotic Intracerebral Control. E.D.O.M. - Electronic Dissolution of Memeory. And, ofcourse, Hypnotism. Taking into consideration the use - and growingly sophisticated - methods of 'Mind Control', pieces to the Kennedy-murder-puzzle fall quickly into place.

THE Warren Commission unknowingly (duped?) steered clear of this breath-taking implication, and the crime was therefore beyond their scrutiny (P. 13). But Lawrence believes that somewhere in Argentina, Brazil (home of many neo-Nazis, and 'Reichsleiter' Bormann - Atlas, March, 1968, 1180 Ave., New York, N.Y. 10036) a Germanic group planned the collapse of the Stock Market - through Tino De Angelis, and his 'Allied' financial Empire - at the precise moment Oswald and others were to shoot the President. Under the control of R.H.I.C. and E.D.O.M., both could be caught with no fear of 'ratting' out. Even Jack Ruby shows striking signs of 'Mind Control' - and even the possibility that his 'control' 'gcofed' during his hypnotic session.

UNDER the scrutiny of a mysterious 'Mr. One', Oswald was sized up as a very probable 'pigeon'. Oswald was educated - told that the would "assist in experimental research", get a education in philosophy. Lee Harvey Oswald underwent surgery on April 1, 1961, in Minsk. Oswald thought he was going to get an "adenoid" operation. Eleven days later he was released - only an adenoid operation doesn't take that long; neither is it tell-tale of all the signs that could only come from the Experimental Section at No. 5 Krasnaya street.

JACK Ruby shows just as many signs of R.H.I.C. and hypnotism. Psychiatrists such as Roy Schafer, and Attorney Billi, noted the 'uncontrolled' behavior of Ruby. "....appears to feel not altogether in control of his body actions, as if they occur independently of his conscious will at times" (P. 97). Ruby, the Rumor goes, was conditioned against remembrance of Oswald after he killed him, and indeed, Ruby found it hard to speak of Oswald. And there was the one 'phone call' Ruby avoided remembrance on every occasion. And the shadows of 'Nazi-anti-Semetic' conversation lurked in his mind, only finding mention in

abstract notes of his.

EACH carrying out his programmed order - Oswald, Ruby, Angelis, and certain unknowns, all moved closer and closer - till Kennedy was shot, the stock market collapsed, and a mysterious "Elite" associated with Bunge and Born, Lda, Argentina, and other Germanic relatives, made off with close to a billion dollars. The Warren Commission was startlingly ignorant and the C.I.A. wasn't about to speak (P.85).

BUT "Mind Control" comes from somewhere - and political assassination has no corner on it. Kenneth Arnold, the famous UFO sighter who allegedly sighted the first modern UFOs in 1947, was personally investigating the June 21, 1947 Maury Island incident of Tacoma, Washington. UFO fragments were involved and eye-witnessed sightings. But all too soon, walls began to have eyes and ears. Strange people began to pop up. UFO fragments were stolen. Arnold was hypnotized to see a fully active-lived-in-room, which turned out to be quite old, and far from recently lived in. And several military Intelligence agents met their death aboard a military plane carrying the 'fragments'. The mysterious Mr. Crisman, who showed all signs of being a under-cover agent (the, then, new C.I.A.?). Ending when Arnold nearly crashed his little plane, for reasons not too mundane. (The Real UFO Invasion, Ray Palmer, Greenleaf Classics, Inc., 5839 Mission Gorge Rd., San Diego, Calif. 92120).

OSWALD - CONTROLLED?

CHARLES Eric Maine, in his novel "The Man Who Couldn't Sleep", had "Psycho-recording", where a person was put under the complete influence of recorded 'stories', and mentally lived a life of "Subjective Escape", under complete control of the operator. And, as is possible in real life, there is the sinister tyrant, Zakon, and cohorts.

SOME would say that all these sundry things are the makings of man's own 'animal thinking'. Maybe so- but still, where do the 'ideas' come from? One writer for this magazine would insist it came from a sinister, eternally ancient race of people beneath our surface, hidden in deep 'caverns', operating 'Mech's: the 'telaug'; 'teleportation mech'; the 'THOUGHT CONTROL mech'. And so it may be - it would be as good as any explanation of the 'madness' going on in our Governments; in our lives. Perhaps, there are more "sleepers" than just Oswald and Klan. Perhaps 'it' reaches to Hell and back!

SUPPRESSION OF KENNEDY ASSASSINATION EVIDENCE AND BOOKS EXPOSING IT

HAROLD WEISBERG

THE effort to suppress the truth about the Kennedy assassination and its official investigation, which I have already proved to be a fake investigation, is stronger today than it ever has been. The news media, especially the Associated and United Press and CBS and NBC, have sought to brainwash the public by a coordinated campaign of suppression, deception, distortion and outright lies that has, to a large degree, succeeded in misleading those who do not have the truth and do not know how to get it. All of this concerted campaign, with exception, is of deliberate dishonest intent, has knowingly false content, and is calculated to deceive the people, as Jim Garrison has charged.

EACH of the media refuses the chance for fair answer. Each exercises its raw power to lie and suppress. With almost all sources of information ganging up, where are the people to learn what really happened and how it happened? How can our society function if the people are lied to and have no independent means of learning, or as is true in most cases, even seeking the truth?

WHEN Photographic Whitewash: Suppressed Kennedy Assassination Picture appeared, the New York Times found it worth more than 40 column inches as news. No other major organ

mentioned it. The Associated Press, which knew of the Times' interest, interviewed me and prepared a story. It then ordered that this story be suppressed unless one of its members demanded it. Unless the AP puts the news on the ticker, how are the papers to know the news exists? This is open suppression. It is opposed to every fundamental democratic principle. The AP can get away with it only because its competition has the same policies.

PHOTOGRAPHIC WHITEWASH proves, with reproduction of 150 pages of documents that should have been in the Warren Report but were hidden in its files, that:

The government refused to gather the available photographic evidence;
It misused, distorted and misrepresented what it could not avoid;
It guaranteed that much of it would be destroyed;
This evidence, identified and described in the book, proves the falsity of the Commission's conclusions and Oswald's innocence.

THIS is why there is such a great effort to suppress it.

THERE can no longer be a complete photographic record of the assassination. This the FBI and the Commission staff saw to.

AND, of course, the pictures were thus denied the members of the Commission for their deliberations and decisions.

CONSISTENT with this is the continuing fear of books that tell the unpleasant truth and wholesaler reluctance to offer them to the book stores.

ACCORDINGLY, we have had to resort to the costly and, for two people, very difficult procedure of letting those who write and have written us know of the books we have published and how to get them. This is the purpose of this letter (and its contents). If your bookstores - which can get our books under normal trade arrangements from us - do not have them, we will mail them to you. The enclosures give the titles and price of each.

HAD it not been for the complicity of the press to begin with, there never could have been this monstrous miscarriage of justice formalized in the Report. As Americans, we cannot allow injustice to be perpetuated. We cannot ever be without fear, the basic institutions of our society cannot be without jeopardy, and no President can ever be really safe if any President can be consigned to history with a phony official investigation of his murder, which then remains unsolved.

IT is our hope that those who cherish our institutions, who shared a love and respect for the murdered President, will first seek the truth themselves and then join in the effort to bring it to public attention and demand the crime be solved and punishment be meted out.

IF we depend on the tightly-controlled press, which is initially responsible for the acceptance of this terrible lie and now mixes new ones with continuing suppression, we will never establish the truth, justice will never be done. That, now, can come only when concerned Americans assume the responsibilities of citizenship. In turn, that can begin only with knowledge, which is what we offer you.

Sincerely,
Harold Weisberg

I KNEW THE

PART I

C ONSPIRATORS

MR. X

Mr. X claims personal contact with some of the major suspects in the Kennedy assassination (letters in our files). Here is a first in a serial part.

WITH regard to the Garrison investigations, I will now state what I know, and may be repeating what I have said in a previous letter. I have had no personal contact with District Attorney Garrison, although I have reason to believe he knows of my existence. I do not consider myself free to disclose anything that I know when the question of the matter being communicated to me as a clergyman is involved, but I consider myself free to comment on matters that have been published in the papers, connected with material in my files.

I was associated with my former ordinary in a small church the English Rite Catholic Church founded by Jon Kazantka - which had been associated as an affiliated church with another body, the Patriarchate of America. Hyde resigned from the jurisdiction and our group was merged with another small denomination, the American Catholic Church. Hyde broke communion with the American Catholic Church and an abortive effort to form a synod followed with Fr. Clarence E. Duffy and Archbishop Carl J. Stanley of Louisville, Kentucky and as a result I came in contact with two people who were publicized in connection with the Garrison investigations - Dave Ferrie and Jack Martin.

MY sole contact with Ferrie * was a long distance phone conversation and a few letters. In 1963, Hyde wrote me at a time in which I had difficulties with him - that there were doubts about his moral character, but that he was going to make him a priest in the group. Later a synod of the group Hyde was associated with was broken up by the cops, and Ferrie was present at the synod seeking to be made a Bishop. This was in August, 1963, not long before the assassination of our late President....In 1965, Hyde issued a magazine, the Byzantine Criterion, in which he listed Dave Ferrie and Thomas A. P. Gilboy....as priests subject to Hyde's jurisdiction.

I was ignorant at that time of the Warren Reports. These mentioned that Jack Martin ** had tried to get them to believe that Ferrie was implicated in a plot, but that Martin was not entitled to be taken seriously because of being a drunk - I have put Martin up two times in my apartment, and although he drinks like a fish, I can state definitely that he is not a drunk. He never goes under and holds his liquor. I personally do not drink, except for an occasional beer, and I do light on that.

* David William Ferrie, a free-lance pilot and private investigator, died Feb. 22, five days after Jim Garrison charged that Ferrie conspired with Lee Harvey Oswald and others to kill the President. Ferrie was found dead in his apartment. The coroner's office said 'natural causes'. Garrison suspected suicide. Ferrie supposedly took a trip to Texas the day the President was shot.

** Jack S. Martin, a private investigator told the FBI that David William Ferrie might be connected in the assassination of the late President in November, 1963. Upon this, the FBI arrested Ferrie, yet seemed to find no bases to Martin's accusations. Attorney Garrison has found some evidence to indicate that the FBI is either withholding or overlooking some important matters on Martin's claim.

FROM what I have read in the papers, I am definitely sure that Ferrie was involved in such a plot (emphasis mine, Ed.). I have been handicapped by being ignorant of Ferrie's possible involvement until fairly recently and at the same time honestly and sincerely believed that an entirely innocent man, Michael Itkin, was involved. I went so far as to write Senator George Smothers and try and get him to investigate Itkin. It is too involved a story, but it is quite possible that Ferrie was responsible for creating the documentation that led me to believe that Itkin was involved.

AS for as the Garrison Investigations are concerned, I need to make my position clear. I respect Garrison and subscribe to his philosophy. However, I am seeking to instigate a movement holding that the Church ought to keep out of politics, and I do not want to appear to be one holding that the Church should go into politics - to support Garrison's side. A tricky situation exists. Evidence has been suppressed by the C.I.A. However, the National Council of Churches has also been involved. I am opposed to the N.C.C., but in order to get anywhere, I have to present my opposition on a high level disassociating myself from much of the opposition, and it would obviously compromise Garrison if church people got the idea that I was saying that the Churches were against him. I want to leave the Garrison matter to other people as much as possible, and not appear one seeking to involve myself in that matter as a publicity seeker; while at the same time, I am a publicity seeker, and need to identify myself as one who was persecuted by Hyde because as Superior of the Society of Domestic Clerics, I insisted on policies that would have kept people like Ferrie out of the Society.

I have written to the Professor who has written the article in the Saturday Evening Post, seeking to interest him in writing an article for FATE, with me listed as a co-author. I would like to see him treat Ferrie from the point of view of philosophy, in accordance with the book on philosophy he has written....

I am going to write to Martin and will then write to you giving his address. He is a nice guy, but he is hard to get along with, since he is a Mister Know It All, and he thinks big whenever I think small and want to work with people who do not think too big. Jack wants to run anything he is in. I want to run whatever I am in, and when we get together things blow up. In contacting you I am taking it for granted that you are planning on running what you are seeking to start up, and I am interested in you as a channel and media, I am not seeking to move in on you. In contacting Jack you are going to run into one or two responses from him: he will either try to sell you on something he can handle, but is too big for either you or me, or else he will threaten you. However, he can be a good friend to you with the Garrison investigations. I want to write to him first before I make it possible for you to get in touch with him.

TO BE CONTINUED.

"EROTIC REALM"

OUTMODED SEX

LEWIS JOHANNES

WHY is it that we continue to cling to the outmoded ideas that our forefathers had when it comes to sex? Is it that we are so deluded and brainwashed that we cannot see the light and come out from under their teachings?

It has been put forward by some of our greatest psychologists such as Freud and others that some of our greatest problems stem from the suppressions that are put on the young by their equally deluded parents in regards to sex.

WE are told that sex or any other erotic thought is dirty, bad, or that if we should break down and indulge in some form of sex that we may become insane. To be sure, that if these natural forces are 'suppressed', quite the same thing may result. That one with great inhibitions may and in many cases do become neurotic, and in some cases, psychotic.

IN these cases, the other end of the pendulum is reached. Some of these poor and disturbed people become sexual perverts, exhibitionists, and rapists. It is these that are pointed at and held up to the scorn of the so-called "normal" people, whose outmoded outlook on a beautiful and natural act has caused them to become what they are.

WHO can look on a beautiful human body and say that it is dirty? Only those whose minds are dirty. Who can say that any act that this body performs is bad? Only those who can find badness in any beautiful thing. Who then is the perverted? The one - who in innocence performs an act that has been blessed by God from the beginning of time, or the one who declares that to be human is wrong!!

IN most cases, the inhibitions that are developed in a child are started when that child cannot think for himself. It makes no difference if that person is alone, or should happen to have a partner in his exploration of the body that has been given to him. In either case he or she is summarily condemned. In this condemnation there is at once established a feeling of guilt, and inferiority or worthlessness. If these feelings are allowed to continue, then the person can often become a burden to the society that has made him that way.

IN recent years, the Playboy magazine has taken great and bold steps toward the erasure of the ancient taboos that are and have been with us in regards to sex. I think that it is time that other 'thinking' people also do their part to aid in this movement - and try to free us of yet another of these yokes that are leftovers of the dark ages.

WHEN the word sex is mentioned, the first thing that comes to mind is the physical act - that is necessary. I think that there is much more to it than that. Not only is there the physical side, but also the psychic and mental side too. One must be in the right "mood" in order to get more than a mere animal delight out of sex.

NATURALLY, there is the pleasure of procreation. To know that your 'line' will continue is pleasant. To give pleasure to one's partner is rewarding. In Biblical times there was a greater meaning attached to the act of love. If a woman could not give her husband, then more than one case is listed in the Bible where at the insistence of the wife, the husband would find another to help him in the act that God had ordained. Such was the case of Abram and Sarah. In cases like these the people were not condemned by God, but were further blessed.

AS in many cases, the translation of these ancient books were made to be erroneous through the years. In these translations, there was much added - and even changed - until one cannot be sure what the original meaning was.

IF we can perhaps make the world that our children will inherit a better place to live in, then I think we should do all that we can to do so. In one way that we can do this is to try and break down the old taboos that surround sex - and put it in the rightful place that it should hold. It is and always has been the one act that brings man nearer to the gods. In sex - he can aid in the creation of life - and the continuation of the human race. At times, one may think that the race should not be carried on, but if it does, then they may become a better people. If time allows us, then we may be able to revive some of the
