Dear Jin.

If you had only 10 condisposer daytime you have a hallows endience and a responsive one!

This long after the few minutes we did by phone I'm still getting an exceptional reaction. (Three letters today, one with straped, return-addressed envelope.)

For a single not letter, not a single not literate, and must expressing uplatous (favorable to us both).

I have not been publicity setter tately, but minus I last \$14 year show I can recall radio and TV in New York City, Washington, Newphin, New Orleans, Chicago and Los Angeles and probably a few ethers. From not one did I receive the reaction I get from those few minutes by phone.

These are not letters from kids. A fair percentage are signed "Krs." While some may be of the generation that was young in JTK's day, I get the impression that by and large they are older.

No bidding, Jim, it is (for it continues) that goed a reaction.

Part of the mystery of what would once have been atypical behavior by Jim Eason was a partly clarified tonay when I got a call from a man whose name I did not categ. He is taping a show at a Eastermento TV station tomorrow. He had called fin, on the air, about Jaworski, apparently after the story got a little attention. Jim gave him the gotta go old buddy routine and then, off the air, told him he could not go into that and if he were interested in more, to get in touch with me.

The TV show will include Zap with Den Rather added as sound track. I've suggested leaving Rather out and that he not now he attacked, since nothing could be gained and something could be lost; and that the most effective way is to let the viewer see and decide for

himself. Said he agreed.

He is to take call-ins and to have Mary Ferrell on a conference-call setup from Dallas. He says Bob Cutler has done a Chap-EMK book deeling with a plot to kidnap Eary Jo and more I don't remember. The mind boggled. 250 private print, talking with onder publisher. I asked if this were really the way to mark the 10 anniv. and did he really want to dilute the subject and more than anything ease, could that be more than baseless conjecture, so did be really want to go into when there was so much solid evidence unknown to me sany. He said he agreed.

There is a new generation of these characters who have done no work of their own, were taken by Garrison et al and repeat that nonsense as though it were beyond question. He is but one, another, part of a Cambridge, Mass. group, spent alrost two hours on the phone Sunday. Shocking how little they know but they are on the college circuit. They, too, go for the Sarrison/Computers insanities and repeat, with alides.

Each of today, tonight to 10 p.m., on phone re or taping shows. Turned down invitation to go to NIC to do TV show Ned. (impossible). Taped hour to Chicago, spent sors than hour discussing one in DC temporrow a.m.

Phone call from BYC indicates considerable success for Executive Action movie. New in one of the houses, New in both, first line both ever had some show.

Freed and Lame of BI area college tonight. They apparently have easy appearances limed up (with Estimat General, Mary else?) Freed in PI today, according to admitter AF dall.

Mecha taped in Pon area, broadcant AC MPR station tonight. Wil heard part, called he and

I tapens heard last in half hour. Considerable passion, error, conjecture and talk about that he doesn't understand, almost all from backs not personal knowledge and wilder ravings of others (IBO triple agent, "arine's uncle USSE speck, etc.). He 11/19/75
