

9/11/93

Dear Grason,

Not long after you left I saw what I ^e presume is an exposed roll of film you left.

As soon as I can think of a secure package for it I'll mail it.

I enjoyed your visit yesterday and your (pl) enjoyment of it.

Clarence is the kind of man I'd ~~expected~~ expected only more so, and I was glad of that, too!

I hope your project succeeds! It should and it is needed.

Clarence mentioned that he knows some publishers who might be interested in my writing. I forgot to ask who they are.

I'd like to know so I can write them and see.

When Clarence brings his family up to our favorite restaurant, and if the children would be interested, for a little civil-war history, we'd like to lunch with them. As you saw, it sometimes has side benefits. We'd like to meet them, too.

Hopefully my wife will feel better then. She as sorry she did not feel up to going with us and she also felt that a different kind of food and less of it would be better for her.

I should have thought to give you a copy of the outdated FBI file classification list for your use until you can get the most current one from Jim Lesar. 393/1921, 908 F, NW, ~~20~~ 509. My recollection of some of the numbers was off a bit. I've highlighted them on the enclosed copy.

The records on blacks are in that 157 file. The informants are in 170. And the ~~admat~~ admat file in which surveillances are hidden is 66, not 65.

to
Best you both,

Hardy
