

Monday evening during the 1 1/2 hrs of NPR news beginning 5 p.m. call from man identifying himself as Don Edwards. Mutual friend told him to call. Arranged for him to come here last night, 6/19, after end JudCom mtg. Just before supper one of his staffers phoned to say he was tied up with quorum calls and could he send a JudCom staffer. I expressed strong reluctance and explained why. Staffer not for last night. I said I'd be in Wash. next Wed and if he'd like would see him then but reluctant make special trip because "lack funds. Told her I saw no sign real investigation and that he, as ex-FBI, would better understand what I have than the non-investigator types they have. Howevern if he is still loyal to FBI, there is a problem because FBI did begin the Whitewashing, under Gray, and most kept silent, not leaking. But when there is no real rush on this stuff, unless something is going on inside the committee that has not leaked, can't see sudden switch from Member to staffer so fast as a real need. Phoned Post to get rundown, only Harwood in, told him purpose, he was to call back and never did. But that was 3 p.m. and his busy part of day began then with conference. HW 6/20/74
