

This explosive new book,* based solidly on the evidence (some of it never intended for public release), challenges the official report on President Kennedy's assassination.

Overwhelming in its presentation of facts, INQUEST is so carefully reasoned and devastating in its questions and conclusions that all the world will listen.

From the Introduction by RICHARD H. ROVERE:

"Here we have something which should make scholars proud and journalists envious and ashamed. The day the Warren Commission Report was issued, the American press should have begun to do what Mr. Epstein has done; it should have cast a very cool eye on the Report and sought to learn from those who prepared it how it was prepared, who did the heavy work, and what individual workers thought of the collective product.... I found [*Inquest*] from start to finish responsible, sober... compelling."
