

9/30/68

Dear Barry,

Sorry not to have been able to respond sooner. If you want to get the job, possibly you'd better have a different extra-curricular activity for a while.

If you have access to a Xerox, can you please copy the Liebel memo from the Lifton book for me? ~~PLEASE~~ I've had the other contents for some time now.

The two projects in which I am particularly interested are anything on Oswald as an agent and his literature-distribution. We have some data, perhaps all or most of it. I can try and make up a list of what we have for you.

Thanks for offering to buy the picture of Youngblood, but I think you can out the money to better use in the Archives. We'll wait it out.

Gary is back in school. Heard from him last week.

Best regards,

September 21, 1968

Dear Harold,

Well, I wasn't assigned to the JFK, but I did get an aircraft carrier. I'm on the Franklin D. Roosevelt and its in Norfolk. It will be there up until next July. Then its going to Mayport, Fla. to pick up the 80 planes it carries, then down to Cuba for sea trials. About November of next year, we are going on a 9 month trip to Vietnam and by the time we get back, I'll be getting out. So that is my two years in the Navy. I have an office job. All I do is sit and type, file messages, and answer the phone all day. I have to get a SECRET clearance also. But I really enjoy it so far.

Since I am in Norfolk, I'll be able to come up to Washington once in a while. As it appears now, I am not sure just exactly when it will be, but I'll let you know when I find out myself.

As of yet, I haven't received anything at all concerning Jack Youngblood. I doubt if I ever will. How about that picture of Youngblood from the press. Is it still up for sale? If so, do you want me to buy it? I will since the publishing company doesn't seem to be cooperating. Let me know what you think.

I got that book from David Lifton. It looks pretty good.

By the way, just today, I submitted a series of five articles about the assassination to our local paper and asked if they would print them. They said they would look them over and let me know. I really doubt if they will. I also asked a paper in Norfolk to print them and they said they would have to read them first. I have to check in with them this coming week.

The Norfolk Public Library also has a set of the 26 volumes. A lucky break for me. I'll be able to go in and use them anytime I want.

Let me know what this project is that you want me to do in the archives so I can get set up for some upcoming weekend.

By the way, I got an answer for my inquiry about autopsys at the Navy hospital in Bethesda. They referred me to some guy in Phila. I'll have to get in touch with him now.

Ferrie documents are still classified according to a letter I just received from the Archives.

Well, can't think of anything else of importance. I'll be home for the next few weekends so continue to write to my home address whenever you can. See you.

Barry...
